January Club & Activity Details

Message to Parents:

Welcome back! We hope you all had a relaxing Winter break and time spent with your loved ones. We are excited to jump back into after school programs. We look forward to continuing to build relationships with the youth, teach the youth new skills that can help them in the future, and watch them grow into future leaders!

Social Emotional Learning:

Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Tuesday & Thursday with new topics each week. The January theme is getting along with others, a great way to start off the new year!

KidGrit - The kid-grit collective is passionate about equipping educators and students with the tools needed for success. Our innovative, mindful approach builds confidence & character, resilience & social-emotional learning, self-care & wellness.

Academic Support:

Power Hour - The main focus of power hour will be to help youth complete homework assignments, work on HYLE activities and also participate in our reading program. Our goal is to help youth reduce missing assignments. If you know what homework your student should be working on, please let us know and we will do our best to ensure they get it done!

Brain Train - The students will be able to choose from several rooms and activities; including homework help, wordle, math games, and trivia kahoot.

STEM Labs:

Engineering Club - Youth who choose this club will have the opportunity to participate in learning about building and architecture. Each lesson builds on the previous and by the end of the month students will have created their own blueprints, built a bridge, and tested their creations.

Fairy Tale Fixers Club - Youth love a good story, and fairy tales are typically filled with beautiful illustrations and engaging storylines. Combining fairy tales with STEM activities that directly relate to a particular tale helps children develop comprehension skills and build a deeper understanding of certain math and science topics.

STEM with FlowServe - FlowServe is a company based in Springville, UT that generously volunteers their time to provide a weekly STEM activity for our students every Wednesday.

STEM rotation - Every Friday all students will participate in a STEM activity. Youth will focus on learning about observation, hypothesis, and the scientific process in these experiments.

Enrichment Clubs:

Clay Club - Introducing clay to youth provides multiple outlets for individual ideas, feelings, and developmental skills. For youth, clay holds no preconceived ideas as to what it is or how it is supposed to be used. Youth will learn how to use modeling clay, oven bake clay, and air dry clay.

Comic Book Club - Comics are a fun way of learning stories or facts by using pictures drawn in panels. It's a great supplement to help foster love and enjoyment for books. Youth will be able to express themselves creatively and grow to love reading.

Music Club - Music accelerates brain development, enhancing fine and gross motor skills, executive function, and sensory development. Youth will learn basic rhythm, how to play small percussion instruments, and create music together.

Soccer Club - Soccer helps kids develop valuable life skills, such as hard work, problem solving, and communication. They will learn how to work together, as well as dribbling, passing, trapping, and accuracy.

BOYS & GIRLS CLUBS
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our SEL focus this month is Getting Along With Others

Get To Know: Conner Tilghman, YDP

"I'm Conner Tilghman, I'm from Arizona and I love Soccer. I'm currently in my first year

at BYU studying Actuarial Science. I hope to one day visit all 50 states. I like working at the Boys & Girls Club because it is a good way for me to connect with youth and teach them new things."

Upcoming Events

February Parent Night - Featuring Lunar New Year and Black History Month - TBD
