Minersville Afterschool Program 2023-2024

January Club & Activity Details

Message to Parents:

Welcome back! We hope you all had a relaxing holiday break and time spent with your loved ones. We are excited to jump back into after school programs. We look forward to continuing to build relationships with the youth, teach them new skills that can help them in the future, and watch them grow into future leaders!

Social Emotional Learning:

Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Monday & Thursday with new topics each week. The January theme is getting along with others, a great way to start off the new year!

Academic Support:

Power Hour - the main focus of power hour will be to help youth complete homework assignments, work on HYLEA activities and their book in a bag. Our goal is to help youth reduce missing assignments by aligning with school teachers, and working on daily assignments at program to allow family time at home. If you know what homework your student should be working on, please let us know and we will do our best to assist them!

Enrichment Clubs:

Sports Club - Sports clubs give children a chance to engage in physical activity, make friends, develop skills, learn teamwork, and build self-esteem. Key skills such as leadership, problem-solving, responsibility and a sense of initiative are all developed through sporting activities with peers.

STEM Club - Youth will participate in a fun STEM Club activity! STEM activities provide opportunities for youth to explore STEM subjects, topics and challenges through hands-on experiential learning.

Edventures Club - Our Edventure Club activities encourage the discovery of talents, interests and self-confidence. While building unique creations and problem-solving through engaging challenges, learners are given autonomy and the opportunity to realize their full potential.

Arts & Crafts Club - Arts and crafts activities engage children's sense of touch, sight, and sound, and help develop their fine motor skills and hand-eye coordination. These activities also encourage children to explore their creativity, imagination, and self-expression, which can boost their confidence and emotional well-being.

Create Better Health Club - Allie Bradshaw with our local USU Extension Office visits our programs monthly to offer the Create Better Health Club where the focus is to help participants establish healthy eating habits and a physically active lifestyle.

Project Learn

Monday - Thursday 4:30 - 5:00

The main focus of power hour will be to help members complete homework and school assignments.

STEM Labs

During enrichment clubs, members will have the opportunity to participate in STEM activities that are engaging and enjoyable for all.

Enrichment

Enrichment clubs are to further enrich and broaden our members' experiences by offering a variety of clubs. Clubs are to help students build skills in a variety of creative and fun activities.

SEL (Prevention and Behavior)

Monday - Thursday

Positive Action, Kid-Grit and SMART Moves curriculum focus on providing youth with important social-emotional skills. All SEL skills are taught through daily lessons and then integrated throughout the rest of programming.
