January Club & Activity Details

Message to Parents:

Hello everyone! For clubs this month we are switching it up. This month the clubs will still be physical and creative but this time we are getting the kids outside more. Both "Cross Country" Club and Jump Rope Club will mostly be held outside. We will also be having the kids learn more about the world around them. Culture Club and Astronomy Club will help the kids understand that what happens where they live isn't all there is to it. There's many countries and planets to learn about. We will also continue with our SEL Learning and Academic Support. Now that we have changed our schedule around it has been even easier for students to get even more one on one help that they may need.

Social Emotional Learning:

Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program - an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Monday and Wednesday with new topics each week. The January theme is Getting Along With Others, a great way to start off the new year!

Kid-Grit - The kid-grit curriculum is the perfect combination of social-emotional learning, mindfulness, character education, and youth development. We are committed to this equitable approach to social-emotional learning for both your students and staff. As a result, when educators facilitate the kid-grit curriculum in classrooms or programs, there will be no disconnect.

Academic Support:

Project Learn - The main focus of power hour will be to help youth complete homework assignments, work on HYLEA activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home.

Enrichment Clubs:

Astronomy Club - Ms. Savannah - This month students who decide to choose this club will be learning about our solar system and constellations. Our universe is massive and there's so much to learn about it. Is Mercury in retrograde? Well the students are going to find out.

Jump Rope Club - Ms. Mimi - Ms. Mary Mack Mack Mack all dressed in black. That's just one little rhyme kids will learn during this club. Not only will students learn jumping with one rope, double dutch will also be part of learning.

Culture Club - Ms. Sydney - Traveling is such an amazing experience. Especially when it's out of the country. The students will learn about different languages, flags, and currency of different countries. The students will take a trip around the world all from the seats of their classroom.

"Cross Country" Club - Ms. Maddie - Don't let the quotation marks fool you. Students will still be running and getting all the knowledge of cross country. We just won't be leaving the school. There's still so much to gain from running around our school and we will also be marking times to show the students improving as the club goes on.

STEM - Each week we will have an integrated science club. The STEM lessons will correspond to our clubs every week!

Friday Rotations - Every Friday we will have activities planned that will build both the physical skills as well as creative and artistic skills of the students. The students have loved having time to do these activities and get to rotate between them during the allotted time during the day.

BOYS & GIRLS CLUBS
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our SEL focus this month is Getting Along With Others

Get To Know

Ms. Sydney

My name is Sydney, I am currently a student at Utah Tech University. Soon I'll be finishing an associates degree in criminal justice. When I'm not working or going to school, I love camping, hiking and traveling. Sydney is an amazing person and we love having her as our awesome Program Manager for our Coral Cliffs BGC team!

Project Learn

Mon-Fri

Daily assistance with reading, writing, math, spelling, or any other homework help.

STEM Labs

Tues & Thurs

Each week we will have an integrated science club. The STEM lessons will correspond to our clubs every week!

Enrichment

Mon-Thurs

Enrichment clubs are to further enrich and broaden our members' experiences by offering a variety of clubs that members have a choice between. These clubs are changed on a monthly basis.

SEL-Prevention and Behavior

Mon & Wed

Positive Action Empowers Greatness with the direct moment-by-moment practice of thinking, acting, and feeling.
