## February Club & Activity Details

### Message to Parents:

We have finished February! March is going to be full of days where we are running programs and working with the kids to create super fun activities! We are excited to let you children participate in more leadership roles and become more involved with each other as we get ready for school to come to a close shortly!

### Social Emotional Learning:

**Positive Action** - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Tuesday & Friday with new topics each week. The March themes are getting along being your truest self, and improving me!

### Academic Support:

**Power Hour** - The main focus of power hour will be to help youth complete homework assignments, work on HYLE activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home to foster relationships.

**STEM Labs**: Each Friday the students will be treated with a specialized activity that is provided by one of our staff that will focus on helping them develop skills in math and science!!! The goal is to help students develop a love for all things STEM and grow their interest in it!

**Fun Friday Rotations**: Each Friday the students will get to participate in structured activities that our staff plan based on what the students would like to do or have earned. We will have everything from physical activities, creative activities, and much more for them to wind down and get ready for the weekend!

### Enrichment Clubs:

**Lego** - Lego club will show us how easy it is to be creative with blocks and make towers that can only get as big as we are willing to work together! Students will come together and be their own "Master Builders" and have fun getting to know their potential with building creatively.

**Harry Potter** - In the Harry Potter club, students can expect to delve deep into the magical world created by J.K. Rowling, discussing and analyzing its themes, characters, and magical elements. They will have the chance to participate in Hogwarts-inspired activities, such as house competitions, wand-making, and magical creature studies. Additionally, students can look forward to forming friendships with others who share their passion for the Harry Potter series.

**Creating Masterpieces** - One thing that we like to do is create things with the students. We can create so much more than just art, but in this club the students will learn what can make a "masterpiece". Over the month your students will get to create as much as they would like, and work as a group and individuals to make that happen!

**Video Games** - The children love to tell us about their favorite games that they are playing at home! One of our staff decided they wanted to make it so that they could take the kids' excitement about video games and turn it into a club and learning opportunity allowing the kids to have fun with learning about gaming! They will learn how to create games, and also what makes some of their favorite games work and operate.

# March 2024

# Timpanogos Elementary

449 N 500 W, Provo, UT 84601 | (801) 857-4361

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

*Our SEL focus this month is Getting Along With Others!*

## Success Stories!

One of my staff is incredible at helping the students with their homework, even though at times we do not quite understand their work! It is incredible to see how their help has shown the children that it is good to get homework done!

At the beginning of February it was a bit hectic as we were trying to get into a new schedule. Some of our kids worked with us and stepped up as little leaders to help each other kids who were not pleased with their groups. That was super awesome to see because it shows me that kids can be just as helpful in others behaviors as we are!

## Project Learn

Monday-Thursday @ 3:45 PM

We hold Power Hour on Monday-Thursday where we help with homework, hold our reading program, and provide learning games/activities and books for the kids.

## STEM Labs

Fridays @ 2 PM

Our main STEM activity every week is held on Friday. This month we will begin to focus on new activities provided by one of our staff!

## Enrichment

Monday-Thursday @ 4:30 PM or 4:45 PM

We run enrichment clubs Monday-Thursday. This month we will be introducing 4 new clubs, one done by each of our staff to help the kids do more things they enjoy doing!

## SEL (Prevention and Behavior)

Tuesday @ 3:45 PM before Project Learn  
& Friday @ 2:00 PM

We will become more familiar with Positive Action and learn how to get along with others and be more true to our truest selves!
