- 3rd/4th: 1 pm - 3 pm
- 5th/6th: 3 pm - 5 pm

CLUB CLOSED

6/17 - Juneteenth
Observed

Get To Know: Madison Ecker Paez, Program Manager

"For those of you who are new, I'm Ms. Madison. I'm from Billings, MT. I am currently studying Music Education at BYU and I love singing with the choirs there. I love to travel the world and collect magnets for my fridge. I also really like reading, watching movies, sewing, trying new foods, and spending time with my family and friends. For fun I collect Vinyls, especially if they are from the band ABBA. I love furry creatures and my dream is to someday have a yard full of the cutest barn animals!"

June Club & Activity Details

Message to Parents: We are excited to welcome you to the Provo Clubhouse Boys & Girls Club summer program. We will be doing lots of fun STEM, Academic, SEL and Arts & Crafts activities throughout the month. These will be driven by weekly themes that inform and structure the daily activities. These are listed on the calendar above and detailed below. Teachers and kids will be fighting the summer 'brain drain' with our High Yield Learning activities, STEM clubs, and literacy time. Kids will also have the opportunity to choose from clubs that give opportunities to learn new skills. A description of what clubs we are offering, and what kids will be learning on a weekly basis is detailed below.

Social Emotional Learning:

Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves.

KidGrit - The kid-grit collective is passionate about equipping educators and students with the tools needed for success. The Kid Grit curriculum is innovative, while the mindful approach builds confidence & character, resilience & social-emotional learning, self-care & wellness.

Academic Support:

HYLA- or high-yield learning activities include leisure reading, writing activities and games like chess or Scrabble® that develop young people's cognitive skills. A high-yield learning activity is one in which youth use skills, information, behavior and values needed for academic success.

STEM- stands for Science, Technology, Engineering, and Mathematics. STEM based activities promote critical thinking, curiosity, decision making, and leadership skills.

Field Trips & Guest Speakers:

Bean Museum - During the first week of programs, students will have the opportunity to attend the Bean Museum and learn about various Science topics that correspond with the grade they just completed. This will help students bridge the gap between the school years.

Yoga Underground - As part of our quest to strengthen our minds and bodies, we have the opportunity to participate in Yoga. Students love the challenge of pushing themselves and learning just how strong they are!

Tom Ballard - Tom Ballard, also known as "The Heart Rock Guy," spreads positivity through storytelling. Who doesn't love rocks? Students will learn about mental health awareness through spreading kindness and being reminded that they matter. They will each receive their very own heart rock as a reminder that they are an important part of our community.

Cowboy Camp - Our good friend, Ted Hallisey or "Cowboy Ted," is coming to run this fun opportunity for the kids. Cowboy Ted combines fun recreational activities with teaching the kids about choosing healthy life choices. Come play cowboys and cowgirls with us, during our first ever Cowboy Camp.

Enrichment Clubs:

Kinder/1st - TBD

2nd - TBD

3rd - TBD

4th - TBD

5th - TBD

6th - TBD
