## May Club & Activity Details

### **Message to Parents:**

We have sadly come to the last month of program! This month we want to have as much fun with the kids while still continuing to teach them during our SEL times. For clubs we decided to bring back some favorites the kids thoroughly enjoyed while adding new activities for them to learn. On May 16 along with having a fun field day that will have the kids broken up into teams with teachers leading we will also have a mini award ceremony celebrating all the amazing students in our program. We would love to have parents join us in celebrating the kids and joining us in the fun activities we have planned. Thank you all for the year!

### **Social Emotional Learning:**

**Positive Action** - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program - an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Monday and Wednesday with new topics each week. The January theme is Getting Along With Others, a great way to start off the new year!

**Kid-Grit** - The kid-grit curriculum is the perfect combination of social-emotional learning, mindfulness, character education, and youth development. We are committed to this equitable approach to social-emotional learning for both your students and staff. As a result, when educators facilitate the kid-grit curriculum in classrooms or programs, there will be no disconnect.

### **Academic Support:**

**Project Learn** - The main focus of power hour will be to help youth complete homework assignments, work on HYLEA activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home.

### **Enrichment Clubs:**

**Culture Club** - Ms. McKenzie - The first club favorite we are bringing back is our Culture Club! The kids absolutely loved learning about new countries and trying different snacks from those places. This time around we want to focus on new countries and other aspects to these countries. We will be focusing on the music from these cultures and different games used to pass time. The kids learned a bunch of fun facts and they were intrigued to see how other countries did things differently than they were used to and we want to further peak their curiosity.

**Movie Club** - Ms. Sydney - One thing we have found out during the year was that the kids love movies and videos. During this club they will learn the ins and outs of making a whole movie! They'll learn what a directors job is and why they are important to the end goal of the masterpiece. They will also take a shot at writing their own script!

**Dance Club** - Ms. Mimi - The next club favorite coming back is our Dance Club! When this club ended the kids were asking when we would be doing this again and we are excited to answer their wishes! The kids who started this club very nervous were quick to open up and really let it shine and we want to bring that same joy to more of the kids! Even with two left feet they learned that they could still have fun with all their friends.

**Soccer Club** - Ms. Savannah/Ms. Zhane - During our sports club a lot of the kids had the most fun with the soccer week. So we decided to make soccer club it's own thing! The kids will go even more in depth with the sport and will be participating in actual games. Each week we will choose team captains and they will help make sure that their teams play fair and keep up the team moral. Not only will they learn a sport they'll learn how to be great leaders!

**STEM** - Each week we will have an integrated science club. The STEM lessons will correspond to our clubs every week!

MAY 2024

**BOYS & GIRLS CLUBS**  
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

*Our SEL focus this month is Taking Care of Me*

## THANK YOU!

Thank you to all our wonderful teachers who were able to help make this year in after school absolutely fantastic! They always put the kids first and made sure they had nothing but fun while they were here. Without them we would not have been able to have a smooth program this year!

## Upcoming Events

May 16- Field Day/Awards  
May 17- Last Day of Club

## Project Learn

*Mon-Fri*

Daily assistance with reading, writing, math, spelling, or any other homework help.

## STEM Labs

*Tues & Thurs*

Each week we will have an integrated science club. The STEM lessons will correspond to our clubs every week!

## Enrichment

*Mon-Thurs*

Enrichment clubs are to further enrich and broaden our members' experiences by offering a variety of clubs that members have a choice between. These clubs are changed on a monthly basis.
