# May Club & Activity Details

## Message to Parents:

How on earth is it the last month of school? This year has flown right by and it has been nothing short of a great school year! We have a lot planned for the last month so we can go out with a bang! We have loved spending time with your students and we thank you all for the support! **Just a reminder that Clubs will be closed May 20th- June 1st. We will also be closed early May 6th-May 10th. Your students will need to be picked up by 4:00pm.** If you have any questions about that feel free to reach out!

## Social Emotional Learning:

**Positive Action** - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Monday & Wednesday with new topics each week. The May theme focuses on Gratitude!

## Academic Support:

**Power Hour** - The main focus of power hour will be to help youth complete homework assignments, work on HYLEA activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home.

## STEM Labs:

**Science** - Youth will have the opportunity to participate in a new experiment every Tuesday, Thursday and Friday! Youth will focus on learning about observation, hypothesis, and the scientific process in these experiments.

## Enrichment Clubs:

**Physical End of School Year Activities Club** - For the month of May, we will be doing different physical activities to celebrate the end of the school year. We will not have a theme for clubs but instead, we will do different activities such as sports, field activities, races, etc. that will keep the students active while still having a blast!

**Creative End of School Year Activities Club** - For the month of May, we will be doing different creative activities to celebrate the end of the school year. We will not have a theme for clubs but instead, we will do different activities such as arts and crafts, science experiments, etc. that will keep the students engaged and having fun!

## Last Week of Program Activities:

**Movie Monday**- Monday will be our movie day. We will be choosing a rated G movie to watch. They are welcome to bring stuffed animals, or anything comfortable to enjoy the movie. We will be providing small snacks that they can enjoy during the movie as if they were at a movie theater.

**Tropical Tuesday**- We will have a number of activities planned for students to participate in all while being beach themed!

**Wacky Wednesday aka Happy Not your Birthday Celebration**- We want to make sure everyone is celebrated! We will be hosting a giant birthday party for the kids and hope the families will join as well. We will be playing games with balloons, awarding medals and blowing out some candles in honor of each student.

**Thankful Thursday**- We want to express our appreciation to teachers, faculty, staff and especially the families involved in Boys and Girls Club. The students will participate in a group project to show their gratitude for this school year.

**Field Day Friday**- We will have our annual field day on the final week of programs. This will include a game of kickball, minute-to-win-it games, parachute, and will be slurping the kids with water games. Because we will have water games, we ask the students to dress appropriately. We ask that they wear clothes and shoes that they are comfortable in and are okay with getting wet. They may use their swimming suit but have to wear a shirt and shorts over their swimming suit (must follow dress code guidelines). They may also switch into water shoes or flip-flops while playing with water. If you have any questions, feel free to contact us!

MAY 2024

# MOUNT MAHOGANY

### Project Learn

*Monday-Thursday*

The main focus of power hour will be to help members complete homework assignments, work on HYLEA activities and also participate in our reading program.

### STEM Labs

*Tuesday and Thursday*

During our power hour on Tuesdays and Thursdays, members have the opportunity to participate in STEM labs after they have.

### Enrichment

*Everyday*

Enrichment clubs are to further enrich and broaden our members' experiences by offering a variety of clubs that members have a choice between. These clubs are changed on a monthly basis.

### Prevention & Education

*Monday, Wednesday & Friday*

*Positive Action & SMART Moves curriculum focus on providing youth with important social-emotional skills. All SEL skills are taught through daily lessons and then integrated throughout the rest of programming.*
