May Club & Activity Details

Message to Parents:

The end of the year is fast approaching us now, and we only have a few weeks left with your children! We have loved getting to know each and everyone of you and hope that this summer can be a nice long and relaxing one that helps boost up your children as they get ready for next school year!

Academic Support:

Power Hour - The main focus of power hour will be to help youth complete homework assignments, work on HYLE activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home to foster relationships.

STEM Labs: Each Friday the students will be treated with a specialized activity that is provided by one of our staff that will focus on helping them develop skills in math and science!!! The goal is to help students develop a love for all things STEM and grow their interest in it!

Fun Friday Rotations: We will be having celebrations for the end of the year! To start off we will be doing a Tech day where the kids can bring their phones, Tablets, or other electronic devices! We will also play some switch games with everyone like MarioKart. The following Friday we will be doing a field water day where the kids can bring their swimsuits and shirts and play with some water! And to end the year off we will be doing a slideshow and award ceremony to celebrate your children and their accomplishments!

Enrichment Clubs: For the first bit we will continue this clubs last month's clubs

Writing Club - The child will get to write stories and thank you letters to each of the teachers that taught them throughout their school day!

Art Competition - Lots of the students are very artistic, So we are going to put on a timed competition and then also make other crafts whilst we do that!

Talent Show - A show of each of the kids special talents! We have done one before and now we are going to do it again!

North Park Day - A few weeks ago we went to North Park and back by popular demand we are going back to spend some time there and enjoy the park! Keep in mind this will be a **Thursday!**

Just Dance & Favorites - All the kids will get to dance or do other activities that they choose from what they enjoyed over the year!

Cooking Creations - On this day we will pseudo let the children make food by giving them ingredients and allowing them to come up with something while also teaching them a bit about cooking!

Sports Day - This will be all about how sports are! With kickball and soccer games and other fun sports to play!

Game Room/Movie Room - The children will get to participate in movies and board games all day as they enjoy the end of the year!

May 2024

Timpanogos Elementary

449 N 500 W, Provo, UT 84601 | (801) 857-4361

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our SEL focus this month is Getting Along With Others!

Success Stories!

This week I was in charge of STEM. I tasked the kids with building race tracks out of cardboard, paper, and tape. The younger group started first and showed lots of creativity with the tracks. They only had 30 minutes so when the older group switched them I instructed the older group to finish the tracks the kids have made, and each student showed wonderful engineering and teamwork skills and I was super impressed!

Our students participated in multiple SEL lessons and they all gathered good things and were able to show support for themselves and each other.

Project Learn

Monday-Thursday @ 3:45 PM

We hold Power Hour on Monday-Thursday where we help with homework, hold our reading program, and provide learning games/activities and books for the kids.

STEM Labs

Fridays @ 2 PM

Our main STEM activity every week is held on Friday. We are going to try and do more science experiments for the end of the year even on our fun days!

Enrichment

Monday-Thursday @ 4:30 PM or 4:45 PM

We run enrichment clubs Monday-Thursday. This month we will set aside a main activity each day to have some fun with the kiddos before the end of the year!

SEL (Prevention and Behavior)

Tuesday @ 3:45 PM before Project Learn & Friday @ 2:00 PM

We are finished with this for this year, but we are excited to continue to have a good rest of our year learning SEL through our daily interactions!
