August Club & Activity Details

Message to Parents:

Hello! We are excited to start the new school year and have a lot of fun activities planned. As we navigate the beginning of the year and gauge the interests of your students please keep in mind some of our activities may change. We promise to support your students and provide a fun learning environment for them. Thank you for always supporting our clubs and programming!

SEL- Positive Action & SMART Moves- Members will be introduced to both programs with an extra focus on “Understanding Our Self Concept” and “Building Group Agreements”.

Project Learn - Members will be guided and supported in completing any homework assignments. They will also be engaged in age/grade appropriate activities when they don’t have any class assignments or homework to complete.

All 3 of our Clubs are offered 5 days a week!

STEM Club - Members will learn to use science, technology, engineering, and math in a fun and creative way! Circuit board connections, rocket building, volcano eruptions, and more.

Get Moving Club - Members really enjoy this club, getting to learn new games, practice teamwork, and developing gross motor skills!

Arts & Crafts Club - Members get to express their creativity in this club using a plethora of mediums!
