UPCOMING EVENTS

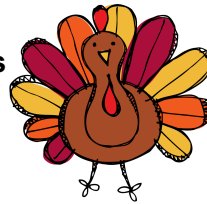

Nov. 5 - Picture Day Retakes!
Nov. 8 - Adam Sandler Day!
Nov. 11 - Veterans Day!

CLUB CLOSED

NOV. 27 - 28th: Thanksgiving Break! 🦃

Staff Favorites:
Thanksgiving Foods and What We Love Most about the Holiday!

🦃 **Mrs Marquessa's** favorite Thanksgiving dish is stuffing! She also loves spending time with her family during the holiday!

🦃 **Miss Kadence** adores homemade mashed potatoes, and her favorite Thanksgiving tradition is gathering with her family to play games while savoring a tasty meal!

🦃 **Mrs Brooklyn** loves her grandma's sweet potatoes, and what she enjoys most about Thanksgiving is the delicious food and the precious time spent with family.

🦃 **Mrs Nikole** looks forward to sweet pumpkin rolls at Thanksgiving and cherishes the time spent with her family during the celebrations.

Project Learn

(Monday-Thursday 4:15 - 4:45)

During this designated time, we focus on discussing school-related subjects, completing homework, or engaging in reading activities. Even if the children don't have assignments, we use this time to enhance their reading abilities by reading to a peer or a staff member.

STEM Labs

STEM stands for Science, Technology, Engineering, and Mathematics. It's an interdisciplinary approach to learning that encourages hands-on exploration, problem-solving, and real-world applications. STEM education focuses on integrating these four disciplines in order to promote critical thinking, innovation, and collaboration. By engaging in STEM activities, individuals develop skills that are essential for success.

Enrichment

Enrichment clubs are to further enrich and broaden our members' experience by offering a variety of clubs. Clubs are to help students build skills in a variety of creative and fun activities.

Social Emotional Learning (Prevention & Behavior)

Monday - Thursday

The Social Emotional Learning curriculum is an evidence-based program that is integrated into afterschool activities to create a positive environment throughout the program. This environment encourages students to do their best and be their best. The Leader In Me program teaches real-life concepts that help students feel good about themselves.

November Club & Activity Details

Message to Parents:

We are thrilled to welcome November with open arms and a heart full of gratitude. This month, we have a variety of exciting clubs and activities planned for our little turkeys, including , learning about rocks and minerals, dancing til our legs fall off and storytelling sessions about adventures they may have had. We can't wait to gobble our way through these fun and enriching experiences together!

Ultimate Frisbee Club - On Mondays, we will have Ultimate Frisbee Club, a great opportunity for the kids to engage in a fun and energetic sport that emphasizes teamwork, communication, and physical activity. This club provides a supportive environment for participants to learn new skills, improve their coordination, and practice good sportsmanship both indoors and outdoors.

Rock Club - Get ready for an exciting and educational time! Starting every Tuesday in November, Miss Nikole will be hosting a weekly session where she will showcase an impressive collection of rocks and minerals. The kids will have the opportunity to examine a variety of fascinating items, including arrowheads, crystal rocks, geodes, and much more. This engaging and interactive experience promises to be both fun and educational for everyone involved!

Dance Club - We are thrilled to announce that every Wednesday in November, we will be hosting the Just Dance Club in the Home Ec room. Join us for an evening of fun and fitness as we groove to the latest dance hits and classic favorites. All ages and skill levels are welcome, and no dance experience is required. Don't miss this opportunity to get active and socialize with fellow dance enthusiasts. Mark your calendars and get ready to dance the night away!

Show & Tell Club - Every Thursday in November, we will be hosting a show and tell club for the kids. It's an opportunity for them to share their exciting adventures and vacations with their peers. They can choose to present a slideshow of their experiences or bring in an object that holds special meaning to them. It's a wonderful chance for the children to express themselves and learn from each other's unique experiences.
