## Get To Know Mrs. Patty

Mrs. Patty is our new site coordinator at Cascade! We have missed Mrs. Kalo, but we are so excited to welcome Mrs. Patty! Here is a message from Mrs. Patty, "My name is Patty Clark! I am from Pleasant Grove. I am a mom to six kids, a wife and a grandma. I have had a passion for teaching since I was a little girl. I enjoy interacting with children, building relationships and making a positive impact in their lives. One of my favorite quotes is, "Education is not the filling of a pail, but the lighting of a fire." " William Butler Yeats."

## February Club & Activity Details

### Message to Parents:

Hello Everyone! We are excited to be in the second month of the year! This month we will be focusing on being kind and genuine towards others in all of our lessons and throughout our clubs. Please make sure to note the closure dates in February as there are quite a few. Please continue to review our Parent and Student handbooks with your members as we are still struggling to get back into appropriate routines and behaviors in club and want club to be a safe and fun environment for all in attendance! Thank you for your ongoing support.

**Project Learn** - Project Learn or “Power Hour” is our academic time Monday - Thursday to help support what our club members are learning during the school day. Boys & Girls Club offers homework help, High Yield Learning activities, and other fun games/activities that have an academic focus that are still fun! This month, we will be focusing on math and literary skills through different games and activities!

**STEM** - STEM is our twice a week rotation that is taught by our AmeriCorps members! STEM includes topics of science, technology, engineering, and math. Within this club our members will be able to learn and explore aspects of how the world works around them. Building, creating, and constructing projects out of objects in the world around them.

**Social Emotional Learning**- Social Emotional learning is crucial to development and helping to build life long regulation skills! We make learning fun through these curriculums! The curriculum Boys & Girls Club uses is an evidence based program called Positive Action. Through this curriculum and it’s many lessons, club members will learn how to take care of their bodies and their minds.

**Get Moving Club** - This month, club members will have the opportunity to learn about various sports and games within Get Moving club. Members will practice gross motor skills, teamwork, and sportsmanship. The Get Moving club is separated by grade group to make sure that all members are safe, as different ages have different understandings, abilities, and motives.

**Career Exploration Club** - Members will have the opportunity to shape the curriculum of this exploration club as they grow and express opinions about their future occupations. Members will be encouraged to take club insights outside of school and guest speakers will be invited.

**Enrichment** - This is our program club time. Members will be able to choose which club they are most interested in and be able to build skills throughout the month in the various club options.
