[Membership Handbook](#)

Project Learn

Monday-Thursday

The main focus of power hour will be to help members complete homework assignments, work on HYLA's (High Yielding Learning Activities) and also participate in our reading program.

STEM Labs

Wednesday-Friday

Youth will have the opportunity to participate in a new experiment every Tuesday, Thursday and Friday! Youth will focus on learning about observation, hypothesis, and the scientific process in these experiments.

Enrichment

Everyday

Enrichment clubs are to further enrich and broaden our members' experiences by offering a variety of clubs that members have a choice between. These clubs are changed on a monthly basis. This month, we will be doing Getting to Know You clubs for each age group. This will encourage kids to get to know their new classmates better and help create friendships!

Social Emotional Learning (Prevention & Behavior)

Monday-Tuesday

Positive Action & SMART Moves curriculum focus on providing youth with important social-emotional skills. All SEL skills are taught through daily lessons and then integrated throughout the rest of programming.

February Club & Activity Details

Message to Parents - Hello Parents! This month we are excited to introduce some new clubs to your students! Each Club is detailed below and will include hands-on education and fun activities! We will also continue teaching STEM Club and our Social Emotional learning curriculums! Within these curriculums we will be learning more about how to take care of our intellectual and physical bodies as well as our other emotions as a whole.

Thank you!

As always, reach out with any questions or concerns.

Social Emotional Learning:

Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment

throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Tuesday & Thursday with new topics each week. The January theme is getting along with others, a great way to start off the new year!

Power Hour - The main focus of power hour will be to help youth complete homework assignments, work on HYLE activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home.

STEM Labs:

Science - Youth will have the opportunity to participate in a new experiment every Tuesday, Thursday and Friday! Youth will focus on learning about observation, hypothesis, and the scientific process in these experiments.

Enrichment Clubs:

Roblox in Real Life Club- In this club, the students will be challenged in different ways such as in Roblox games that the children already know and love. They will learn teamwork, engineering and how to overcome obstacles.

Heartfelt & Hands On Club- In this club, students will make heartfelt crafts and activities that will help them practice love and gratitude towards themselves and others.

We Heart Art Club- In this club, students will learn and practice new mediums of art with the theme of Valentines day!

Let's Get Physical Club- In this club, students will learn different ways that they can stay active while still having fun!

Note: Children will switch between each club every week. Each child will have a new club every week.
