BOYS & GIRLS CLUBS
OF SOUTHERN UTAH

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our Social Emotional Learning Focus this month is

Happy Birthday

None

UPCOMING EVENTS

None

CLUB CLOSED

February 7 - No club due to training
February 17 - Presidents Day
February 18 - In service day - no school

Here is a reminder that warm weather will be here before we know it! Here at the club we are super excited for the warmer weather to return so that we can do more outside activities. We hope that your winter has been kind to you and we look forward to continuing to serve you and our club members in the months to come!

Project Learn

Monday - Thursday 5:00 - 5:30

Most days we do Project Learn together and then split for Positive Action. We will be assisting with assigned homework. In addition we will provide math sheets, books for reading and we will often do trivia to help reinforce learning.

STEM Labs

Thursday 3:30 - 4 pm
Friday 1:45 - 2:30 pm

This month we will be doing projects and experiments related to earth science. It will be a good month to test club members in their hypothesis of changes.

Enrichment

Monday - Thursday 4 - 5 pm

This month we will provide 2 physical clubs and 2 activity clubs. We are offering Physical Club, Capture the Flag Club, Bracelet Club and Coding Club. This will give youth a good variety of activities.

Social Emotional Learning (Prevention & Behavior)

Monday & Wednesdays - 3:30 - 4:00

We will be covering a wide range of topics in our Positive Action curriculum for Social Emotional Learning. Everything from gratitude, to frustration, living by the Golden Rule, showing and giving respect as well as being a good friend.

February Club & Activity Details

Message to Parents:

February is here and we can already feel the warmth in the air! We are excited to celebrate Valentine's Day and Presidents day this month. We will be learning the history behind these two holidays and having some fun with them. We do our best to make sure club members take everything home with them however if anything is left behind it will either be left in the lost and found or in the office. Please make sure your child checks these areas each day, even if they think they don't have anything in there.

Social Emotional Learning (Positive Action) - This curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run Monday and Wednesday with new topics each week. This month we will focus on taking ownership, being intentional and learning self-honesty. It should be a good learning experience this month.

Project Learn: This is dedicated time to cover school related topics, homework or read. Even if the kids don't have homework, we take this opportunity to strengthen their reading skills by reading to their buddy or to a staff member. We work with the teachers to make sure that we are meeting the needs of students as a class and as individuals.

Fun Friday: This provides structured, free time with Club Members where they can choose what station they want to be at. We generally have a game table, a play-doh and slime station, craft table, painting or water-colors table, and sometimes we break out the cornhole and make an obstacle course for the adventurous ones! It's a good time to have "down-time" while still exercising their skills in working together, challenging themselves, as well as building sportsmanship and camaraderie with their peers. We also will offer for them to finish any projects they have started during the week and didn't have enough time to do.

Seasonal Crafts Club: This is a club where we do crafts related to the season. This month we will be focused on learning about the history behind Valentine's Day as well as Presidents Day. We will have several craft opportunities and will work to ensure club members understand the importance of these holidays.

Capture the Flag Club - It's really great to get everyone moving and to work together to achieve a goal. Club members love playing this so we turned it into a club where we can strategize and work to improve our skills. This will enable club members to move a lot, get their wiggles out and allow them to work with other club members to come up with divisive strategies to win the game.

Coding Club - Computer skills are a must these days and this is a great opportunity for club members to be in the computer lab and use their knowledge and intellect to make programs run the way they want on the computer. This will help improve their cognitive skills, as well as help improve their self-confidence and computer skills.

Physical Club - All of us need to move on a regular basis and little humans are definitely no exception! We have done physical club for a couple months now and we find the our club members really like the chance to vote and agree upon that days' physical activity. We play everything from Lava Monster to Spider-man tag and try to switch it up often to keep it exciting. This gives our club members the opportunity to

move around a lot, getting much needed exercise after a long day of sitting in school. It also energizes them and allows them to work closely with their fellow club members on making strategies to win.

Bracelet Club - Each week club members will make a different bracelet and utilize themes to create. They will be using different materials and really working to come up with their best creations. This will build and inspire their creativity, self-confidence and ability to think outside the box. You can use this club as a good conversation starter with your youth and ask them about it.

Leadership Club - This is a new curriculum that we will be working through to teach our club members some of the attributes of being a good leader. This goes in line with our Positive Action series where we discuss how to treat others and how we want to be treated. This will include utilizing positive reinforcement as well as positive thought-processing to get to a good result in leadership situations. We are excited to see how the club members will react to this.
