Jaxston 17th

## UPCOMING EVENTS

### CLUB CLOSED

Spring Break 31st- April 4th

### Get To Know

### Wendy Yardley

Wendy Yardley is the Boys and Girls Club-Area Director over the After School Programs at Belknap, Minersville and Milford Elementary Schools. She has served this position for 20 years and counting. She is such a kind and compassionate person and we love to have her in our club and working with our student's. She loves to spend time with her family, camping, hiking, high adventure activities, reading, learning new things and spending time having fun and learning with kids! One thing Wendy wishes to do one day is to go SKYDIVING! We really appreciate Wendy and all the hard work she puts into our program to keep us up and running!

### Project Learn

The main focus of power hour will be to help members complete homework and school assignments  
M-TH 4:30-5:00

### STEM Labs

During enrichment clubs, members will have the opportunity to participate in STEM activities that are engaging and enjoyable for all  
Wednesday 3:30-4:30

### Enrichment

Enrichment clubs are to further enrich and broaden our members' experiences by offering a variety of clubs. Clubs are to help students build skills in a variety of creative and active activities  
M-TH 3:30-4:30

### Social Emotional Learning (Prevention & Behavior)

Leader In Me and SMART Moves curriculum focus on providing youth with important social-emotional skills. All Social Emotional Learning skills are taught through daily lessons and integrated throughout the rest of the program.  
M-TH 3:30-4:30

## March Club & Activity Details

### Message to Parent

We are so excited for the fun activities we have planned for March! We look forward to continuing to build relationships with the youth, teach them new skills that can help them in the future, and watch them grow into future leaders!

### Our Core Promise

To America's youth we promise to provide a safe, positive place and to have a significant impact on their lives. To the Nation we promise to uphold high ethical standards in all areas, especially overseeing finances, reporting data on membership and community outreach, being good stewards of the donor dollar, and representing ourselves to the public.

### Social Emotional Learning:

**Leader In Me-** Social Emotional Learning Curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program – an environment that encourages students to do their best and be their best. This program is run Monday through Thursday

### Academic Support:

**Power Hour:** The main focus of power hour will be to help youth complete homework assignments, work on HYLE activities and their book in a bag. Our goal is to help youth reduce missing assignments by aligning with school teachers, and working on daily assignments at programs to allow family time at home. If you know what homework your student should be working on, please let us know and we will do our best to assist them! We do power hour Monday-Thursday.

**STEM Club-** Provide hands-on learning experiences in Science, Technology, Engineering, and Mathematics. Students engage in projects like building simple circuits, constructing bridges, coding with beginner-friendly software, and conducting science experiments. These activities are designed to be interactive and fun, helping kids develop problem-solving skills, creativity, and a strong foundation in STEM concepts while encouraging teamwork and curiosity about the world around them.

**Around the World-** Embark on a thrilling adventure where kids discover the world without leaving their school! Each month, we “visit” a different country, diving into its culture, landmarks, and traditions while learning key words and phrases in its language. Through engaging crafts, interactive games, and hands-on activities, members collect stamps in their “passports” as they explore new ways to communicate and connect with the world. Are you ready to explore? Let’s get started!

**Puppets-** students will explore the art of puppetry through hands-on creativity and storytelling. They will design and create their own puppets, learn performance techniques, and bring their characters to life through fun and engaging skits. The club will encourage self-expression, collaboration, and confidence while making learning playful and interactive.

**GameLab-** Welcome to GameLab Club, where creativity, strategy, and fun come to life! In this club, you’ll step into the role of a game designer, crafting your very own unique board games to enjoy with friends and family. Throughout our sessions, we’ll explore what makes a game exciting and engaging, from rules and challenges to themes and gameplay mechanics. Get ready to unleash your imagination, experiment with new ideas, and bring your game creations to life!
