BOYS & GIRLS CLUBS
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our Social Emotional Learning Focus this month is Self-Management

Happy
Birthday

Zayden - May 2nd

Project Learn

Project Learn or "Power Hour/Homework Help" is a dedicated time during our clubs where students receive homework assistance and have the opportunity to enhance their literacy skills. This focused period supports academic success and encourages a deeper understanding of their schoolwork, helping students build a strong foundation for future learning.

STEM Labs

We offer a variety of clubs focused on building skills in science, technology, engineering, and math (STEM). Through these clubs, students will engage in diverse STEM activities, learning essential skills that foster innovation, critical thinking, and problem-solving. These hands-on experiences not only enhance their understanding of STEM concepts but also inspire a lifelong passion for learning and discovery.

Enrichment

Students are given the opportunity to explore and learn a diverse range of skills through various engaging activities. These activities are carefully designed to foster creativity, critical thinking, and collaboration, ensuring that each student can discover and develop their unique talents. From hands-on projects and interactive workshops to team-building exercises and individual challenges, our program offers a comprehensive approach to learning that goes beyond traditional classroom experiences. This holistic approach helps students gain confidence, enhance their problem-solving abilities, and build essential life skills that will serve them well in the future.

Summer Camp with Boys & Girls Club

There are a lot of summer camps for our kids, but there is no summer camp like the Boys & Girls Clubs camps.

We are excited to introduce to you the offerings for this summer! There will be food, fun, and lots of opportunities. How will you combat the summer slump? Go to the Boys & Girls Club! Where do you make friends and participate in engaging activities? Go to the Boys & Girls Club! How do you know your child is safe and happy? **Go to the Boys & Girls Club!**

May Club & Activity Details

Dear Parents and Families,

As the school year comes to a close, we want to take a moment to say **thank you** for an amazing year with your incredible children. It has been our absolute joy and privilege to support them after school—watching them grow, learn, and create has been a wonderful experience for our team after school.

Your partnership and support have meant the world to us, and we are so grateful to have shared this journey with you and your children. From homework help and creative projects to games, laughter, and new friendships, this year has been full of memorable moments that we will carry with us into the summer.

With gratitude,

Jade Arter

Boys & Girls Club After-School Program

Project Learn/Homework Help: Project Learn is a dedicated time during our clubs where students receive homework assistance and have the opportunity to enhance their literacy skills. This focused period supports academic success and encourages a deeper understanding of their schoolwork, helping students build a strong foundation for future learning.

Dungeons & Dragons: Dungeons & Dragons offers numerous educational benefits, including enhancing critical thinking, creativity, and problem-solving skills. It fosters teamwork and collaboration, improves communication and literacy, and reinforces numeracy skills. The game also helps develop social skills and empathy, builds persistence and resilience, and provides leadership and decision-making opportunities, especially for student Dungeon Masters. Overall, D&D is a powerful tool for holistic learning and personal development.

Strategy Games - MTG and More!: Do you enjoy the strategic excitement of tabletop games like Vast, Risk, or Catan but find the complex rules overwhelming? Join Games Club to immerse yourself in the world of tabletop gaming in a supportive and educational environment. Our club provides clear guidance on game mechanics and strategies, helping you develop critical thinking, strategic planning, and problem-solving skills. Whether you're a seasoned player or new to the game, Games Club offers a collaborative space to enjoy these intellectually stimulating games and enhance your understanding of game dynamics.

Arts & Crafts: Ready to get your creative juices flowing? Do you have ideas for fun arts and crafts that you'd like to bring to life? Come to Craft Club! In years past we've done a variety of activities including our Upcycling club and more! From making posters, creating collages, designing miniature model homes, or simply having a safe space to practice your art - we hope you'll join us for this exciting club!

Sports: Each week come and learn a new sport or game! We will take time to learn the rules and practice the technique to improve our ability at different sports such as basketball, ultimate frisbee, kickball, wiffle ball and more!
