**BOYS & GIRLS CLUBS**  
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our Social Emotional Learning Focus this month is

Happy  
Birthday

Eleanor Q- 7/21  
Amelia L- 7/2

## UPCOMING EVENTS

4TH OF JULY  
PIONEER DAY

## CLUB CLOSED

JULY 3  
JULY 4  
JULY 24

## Get To Know

Tom loves history, photography, the Lord of the Rings, fruit juice, outdoor adventure, and space exploration, and is eagerly awaiting the scientific breakthroughs that will allow for faster-than-light travel, so he can go back to his home planet. He started his Jedi training at a young age. (On earth that means gymnastics, parkour, and martial arts.) His eccentric parents told him they were aliens, so maybe he really is from a galaxy far far away. When he was around 12, he realized he had no talent for dancing, so he decided to become a dancer! After much tribulation, he became an avid breakdancer... competing, choreographing, teaching, and just dancing pretty much anytime anywhere. This became especially interesting when he joined the Marines, where he busts a move in the middle of combat training. Tom loves the United States of America and wants to keep it safe, so he studied National Security in college. He is married to a beautiful soccer player dancer cookie expert, who is currently studying astrophysics at UVU.

## July Club & Activity Details

### Message to Parents:

We are so excited to welcome you to Cherry Hill's Boys & Girls Club summer program! We will be doing lots of fun STEM, Academic, Social Emotional Learning, Arts & Crafts, and physical games and activities throughout the month. Each week we will have a different theme that will add fun and structure to the daily activities. These are listed on the calendar above and detailed below. All of our staff are excited to bring the summer fun to our program! Please reach out if you have any questions regarding any of our activities.

**STEM-** stands for Science, Technology, Engineering, and Mathematics. STEM based activities promote critical thinking, curiosity, decision making, and leadership skills. During STEM, our students will engage in hands-on activities that allow them to explore the world around them and practice using their critical thinking skills.

### **Rotations-**

**Social Emotional Learning: Positive Action** - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves.

**HYLA-** High-yield learning activities that will include a variety of educational and fun opportunities.

**Literacy-** It is important our students keep up with their reading skills over the summer. Everyday, students will get the chance to challenge and renew their skills through worksheets, games, and reading.

**Week 1:** All About Me Week- Kids will do show and tell and create things that best represent themselves!

**Week 2:** Survivor Week- Campers will face exciting physical challenges, creative art projects, hands-on science experiments, and brain-teasing puzzles. Inspired by the hit TV show!

**Week 3:** Olympics Week- A week of the club members participating in sports and winning prizes

**Week 4:** Job Fair Week- Club members will learn about different careers and how to do them and host their own job fair

**Week 5:** Under The Sea Week- Club members will learn about the ocean and create their own sea life and art projects

**Week 6:** Dinosaur Week- Club members will learn about Dinosaurs, make their own fossils, and look for dinosaur bones!

**Week 7:** Hollywood Week- The club members will be filming their own movie throughout the week and on Friday, they will "screen" their movie and walk the red carpet!

**Week 8:** Carnival Week- A fun week of carnival games, treats, and prizes with educational pieces attached to each activity.

**Week 9:** Scavenger Hunt Week- For our final, club members will be doing an educational scavenger hunt
