BOYS & GIRLS CLUBS
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

Our Social Emotional Learning Focus this month is improving ourselves through positive actions

Happy
Birthday

June Club & Activity Details

Message to Parents:

We are so excited to welcome you to Cherry Hill's Boys & Girls Club summer program! We will be doing lots of fun STEM, Academic, Social Emotional Learning, Arts & Crafts, and physical games and activities throughout the month. Each week we will have a different theme that will add fun and structure to the daily activities. These are listed on the calendar above and detailed below. All of our staff are excited to bring the summer fun to our program! Please reach out if you have any questions regarding any of our activities.

STEM- stands for Science, Technology, Engineering, and Mathematics. STEM based activities promote critical thinking, curiosity, decision making, and leadership skills. During STEM, our students will engage in hands-on activities that allow them to explore the world around them and practice using their critical thinking skills.

Rotations-

Social Emotional Learning: Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves.

HYLA- High-yield learning activities that will include a variety of educational and fun opportunities.

Literacy- It is important our students keep up with their reading skills over the summer. Everyday, students will get the chance to challenge and renew their skills through worksheets, games, and reading.

Week 1: All About Me Week- Kids will do show and tell and create things that best represent themselves!

Week 2: Survivor Week- Campers will face exciting physical challenges, creative art projects, hands-on science experiments, and brain-teasing puzzles. Inspired by the hit TV show!

Week 3: Olympics Week- A week of the club members participating in sports and winning prizes

Week 4: Job Fair Week- Club members will learn about different careers and how to do them and host their own job fair

Week 5: Under The Sea Week- Club members will learn about the ocean and create their own sea life and art projects

Week 6: Dinosaur Week- Club members will learn about Dinosaurs, make their own fossils, and look for dinosaur bones!

Week 7: Hollywood Week- The club members will be filming their own movie throughout the week and on Friday, they will "screen" their movie and walk the red carpet!

Week 8: Carnival Week- A fun week of carnival games, treats, and prizes with educational pieces attached to each activity.

Week 9: Scavenger Hunt Week- For our final, club members will be doing an educational scavenger hunt
