## Project Learn: Academic Support

**Monday:** 4:05-4:50 pm  
**Wednesday:** 3:25-4:00 pm  
**Friday:** 1:15-2:00 pm

Students will have the opportunity to work on homework, class projects, and assignments with support from after school staff. Students will have the opportunity to mentor younger grades and offer support to their peers.

## STEM Labs

**Wednesday:** 3:25-4:00 pm  
**Friday:** 11:15-2:00 pm

Students will experience hands-on, fun, age appropriate AmeriCorps STEM labs. This includes Science, Technology, Engineering, and Math.

## Clubs & Enrichment

**Monday** 4:05-4:50 Mad Scientist or D&D Club  
**Tuesday** 3:25-4:45 Cooking or Arts and Crafts Club  
**Wednesday** 3:25-4:00 Mad Scientist or AmeriCorps STEM Minecraft Engineering  
**Thursday** 3:25-4:45 Cooking or PE Club  
**Friday** 1:15-2:00 AmeriCorps STEM Minecraft Engineering  
2:00-2:30 PE Club  
3:50-4:50 DnD or Arts and Craft Club

These clubs are skill based, and fun. They promote learning in a way that encourages students to try new things, and encourages team building along the way.

## Social Skills (Prevention & Behavior)

**Positive Action**  
**Monday & Wednesday** 3:20-4:00 pm  
**Smart Moves**  
**Friday** 3:20-4:00 pm

We will focus on identifying emotions, learning healthy coping skills, and building positive relationships with peers and family.

### Arts and Crafts Club

Focusing on making art out of recycled materials, students will learn how to transform everyday materials such as plastic bags, soda cans, and what would normally be deemed as “trash” into creative art projects. We will be making an assortment of take-home projects from rugs to air planes. Students will also develop skills with digital art, candle making, drawing, linoleum carvings, etc.

### Cooking Club

This club will teach basic cooking techniques and skills, such as measuring, food preparation, and serving. The goal is to expand students' knowledge of ingredients, recipes, and culinary traditions. This club is designed to boost students' confidence in their ability to cook and create meals, in addition to gaining an understanding that we can all practice healthy eating on a budget!

### DnD Club

Creating a character, crafting a world, and developing friendships are the building blocks of DnD club. Students will utilize their literary skills to write backstories and profiles for their characters. They will problem solve with their peers while learning how to solve issues while placed in an *out-of-this-world environment*.

### Mad Scientist Club

An engaging and exciting STEM club filled with hands-on projects, fun experiments, and creative challenges. Students will get to build and launch rockets, craft slime, design and test a bridge, discover the awesome power of chemistry, and more! Our club provides a safe and supportive environment for kids to ask questions, work with new friends, and develop the real-world skills of critical thinking and problem-solving.

### Minecraft Club

Twice a week, a space is carved out for teamwork exercises within the educational version of minecraft. Students will world-build together, helping each other to finish a variety of adventure based objectives. Finally, the teams will all come together to fight the final dragon boss after creating a world they are proud of.

### PE Club

Let's get moving! PE will focus on sections of sports from soccer to ultimate frisbee. While teaching sportsmanship, teamwork, and goal-setting, students will come together to get their wiggles out. The students will build stronger motor skills while building stronger relationships with their peers.
