UPCOMING EVENTS

Thanksgiving Break – November 26th, 27th, and 28th

CLUB CLOSED

November 26-28th

Get To Know Miss Pieper!

Miss Pieper is the new site director at our Boys & Girls Club. She has worked with Alpine School District and Intermountain Health with kids who need extra support in school or in the community. Miss Pieper is excited to get to know your children and keep building confidence and joy of learning. She has four kids and one pet bunny, and she loves to play outside, sing, cook, write, and take pretty pictures.

Project Learn

M & W 4:50-5:20

During Power Hour, students will have the opportunity to complete all their homework for the week. We will also be collaborating with teachers and offering extra help to students who need it.

STEM Labs

M & W, 4:15-4:45

Students will engage in hands-on STEM activities that allow them to explore the world around them and practice using their critical thinking skills. Students will be encouraged to work in teams, ask questions, and solve problems, all while having a fun time!

CLUBS

T & TH 4:50-5:20

We will do a variety of activities each week correlating to our month's theme. We hope to introduce new ideas and challenge them each week while learning new skills.

Social Emotional Learning (Prevention & Behavior)

T & TH 4:15-4:45

Our Social Emotional Lessons will allow us to dive deeper into managing emotions and learning new coping skills. These are skills that can help students throughout their academic journeys and for the rest of their lives.

November Club & Activity Details

Message to Parents:

Welcome to November! Our big news this month is that we have a new site director, Miss Pieper! She and the team are so excited to keep moving forward in our program. This month, we will focus on gratitude. Gratitude can help us to remember to share and take turns. Gratitude can motivate us to participate in fun activities. Gratitude can help us use kind words! We encourage you to ask your children what gratitude means to them. Also, a quick reminder as we move closer to winter—please remember to send your children to school and our program with layers of warm clothing.

Social Emotional Learning: Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment throughout the program -- an environment that encourages students to do their best and be their best. We will have two different curriculums throughout the year: Positive Action and SMART Moves. Positive Action teaches real-life concepts that help students feel good about themselves. SMART moves helps students create a positive environment in their classroom through collaboration, student leadership, hands on games and activities and team building. Social Emotional Learning will occur on Tuesdays and Thursdays from 4:15-4:45 PM (Positive Action) and Fridays (SMART Moves) from 4:15-5:15 PM.

Thanksgiving Point-Coding Club - Coding Club is designed to introduce students to basic coding principles. We begin the course by learning about basic algorithms, then we learn about the Video Game Design process as students plan and code their own game in Scratch. We end the course with a student showcase for friends and family to see the projects.

Thanksgiving Point-Science Club - Science Club is designed to introduce students to a wide variety of science niches and professions. Each week we focus on a new branch of science and give a brief glance into the field. The goal is for students to find at least one new field that sparks their interest.

Project Learn - Project Learn is an opportunity for students to practice academic skills, catch up on homework, or get any extra support with their school day work. This will occur Mondays and Wednesdays from 4:50-5:20 PM.

Harry Potter Club - Our special club for this month will be a Harry Potter club! Miss Jane has worked very hard to organize different learning activities grounded in the wonderful world of Harry Potter. We will develop our skills in literacy and storytelling, reading comprehension, world-building and character development, visual and tactile art, and we will build confidence and teamwork skills.
