## Project Learn

*Monday-Thursday*

We will be assisting students daily with their homework and reading. Additionally, we will provide fun learning games to help students practice what they are learning in school.

## STEM Labs

*Mondays, Wednesdays and Fridays*

Explore, experiment, and discover! In STEM, kids will dive into science, technology, engineering, and math through fun, hands-on activities that spark curiosity and creativity.

## Enrichment

*Monday - Thursday*

*Comic Book Club  
Clay Club  
Physical Club*

## Social Emotional Learning: Positive Action

Positive Action helps students learn to make good choices, feel good about themselves, and treat others with kindness. Through engaging lessons and activities, students build skills in self-control, respect, and problem-solving.

## February Club & Activity Details

### Message to Parents:

Happy February! We're excited to introduce our new enrichment clubs and can't wait for students to explore all the fun and engaging opportunities they offer. As always, we are incredibly grateful for the continued support from our families—your partnership helps us create meaningful experiences that support student growth, creativity, and connection. Thank you for being such an important part of our community, and we look forward to another great month together!

**Clay Club** - Clay Club is a hands-on, creative club where students explore the art of working with clay! Each session gives students the chance to learn new techniques, build fine motor skills, and express their creativity through fun, guided projects.

**Comic Book Club** - Comic Book Club is a creative club where students bring stories to life through comics! Students will learn about characters, storytelling, and illustration while creating their own comic strips and books.

**Physical Club** - Physical Club encourages students to stay active through fun games and group activities while building teamwork, motor skills, and a love for movement.
