No Closures

Get To Know

Hi everyone! My name is Pita Tuaone, and I'm excited to be the new Site Coordinator at the Orem Jr. High Boys & Girls Club! I was born and raised in Florida and moved to Utah with my family a couple of years ago. I'm currently finishing my Human Development degree at BYU and hope to become a Licensed Clinical Social Worker. I've spent several years working with youth in residential treatment centers and am passionate about helping kids recognize their potential, build confidence, and learn that they can do hard things. Outside of work and school, I enjoy volleyball, long walks, traveling, and spending time with my family. I recently got back from a trip to Japan, which was an amazing experience! I'm excited to get to know your students and make the club a fun, safe, and welcoming place for everyone.

PARENT RESOURCES

[Parent Handbook](#)
[Membership Handbook](#)

Power Hour

Club members engage in daily homework support, literacy development, and specialized math practice to strengthen their academic foundation.

STEM Labs

Members explore various concepts within science, technology, engineering, and math through hands-on laboratory experiences.

Enrichment

Club members discover fresh interests, talents, and innovative concepts through a variety of engaging extracurricular pursuits.

Social Emotional Learning (Prevention & Behavior)

Club members participate in Positive Action and SMART Moves, a comprehensive curriculum designed to equip youth with vital social-emotional competencies. These fundamental skills are introduced via daily instruction and woven into every aspect of our program.

August Club & Activity Details

Message to Parents:

Greetings! As we settle into the rhythm of the new school year, we are excited to implement various national Boys & Girls Clubs curricula. These programs are tailored to foster growth across multiple developmental pillars, providing a nurturing and enjoyable space where members can thrive academically and social-emotionally while forging meaningful connections with peers.

Sports Rotation - MONTH BY MONTH UNITS During the latter half of August, our daily programming includes a comprehensive sports rotation. Members will explore diverse athletic disciplines, mastering specific techniques and game rules. This initiative promotes physical wellness and collaborative teamwork. Over the next fortnight, we will dedicate several days to each sport, culminating in a full-scale game to apply their newfound skills.

Art -

Board Games -

Magic: The Gathering Guild at Orem Jr. High

This strategic card game club offers students a chance to build decks, learn gameplay mechanics, and compete in friendly matches. It's a great way to develop critical thinking and social skills.

Robotics -

The Robotics and Technical Science program at Orem Jr. High's afterschool club offers hands-on STEM experiences where students build, code, and test their own robotic creations. Designed for 7th-9th graders, it fosters creativity, problem-solving, and real-world engineering skills in a fun and supportive environment.
