Get To Know

Hello, my name is

Abilene Carmona and I'm happy to be returning for my 3rd year as Site Director at Windsor. I spent 7 years working as a paraeducator in the Granite School District and have been with the Boys & Girls Club for the past 3 years.

In my free time, I enjoy fishing, hiking, cooking, and spending time with my family. I'm looking forward to an exciting year ahead and am eager to welcome both returning students and new families into our programs!

[Membership Handbook](#)

Project Learn

Monday/Wednesday 4:50PM-5:20PM

A dedicated time for students to strengthen their reading and math skills while exploring engaging, hands-on activities in science, social studies, and other academic areas. Learning is fun, interactive, and designed to help every student succeed!

STEM Labs

Monday/Wednesday 4:00PM-4:30PM
(K-2)

Tuesday/Thursday 4:00PM-4:30PM
(3-6)

Students engage in hands-on science, technology, engineering, and math activities that promote creativity, problem-solving, and critical thinking. A YES curriculum is used to deliver fun, interactive, and structured lessons that keep students actively learning and engaged.

Enrichment

Specialty clubs run Monday-Thursday from 3:45-4:45 PM, offering a variety of fun options like music, cooking, science club, and animation studios for students to explore new interests after school. Each term will feature different specialty clubs, giving students new opportunities to learn and explore.

Social Emotional Learning (Prevention & Behavior)

Tuesday/Thursday 4:50PM-5:20PM

Students develop important life skills such as managing emotions, building healthy relationships, showing empathy, and making responsible decisions through guided activities, discussions, and group experiences.

August Club & Activity Details

Message to Parents:

We are excited to be back at Windsor and ready to make new connections with our students and families! This year, we will have many opportunities to connect with parents through school family events, as well as events hosted by our own program. We are also excited to kick off our specialty clubs! Clubs run Monday–Thursday from 3:45–4:45 PM. Starting this month, students can participate in Science Lab, Soccer Club, Cooking Club, and Art Animation Studio. We will be introducing new specialty clubs each month, giving students even more opportunities to explore their interests, learn new skills, and have fun. We look forward to a fantastic year together!

STEM: Students participate in hands-on science, technology, engineering, and math activities that encourage creativity, critical thinking, and problem-solving through fun and engaging lessons. Our AmeriCorps member leads STEM activities using the YES curriculum to provide interactive and engaging learning experiences.

Project Learn: During Project Learn, students receive extra support in reading and math while also participating in engaging lessons and activities focused on science and social studies to help strengthen academic skills and encourage a love of learning.

Positive Action (SEL): Students participate in activities and discussions that build social-emotional skills such as self-confidence, empathy, responsible decision-making, and positive relationships. The Positive Action curriculum helps students develop character, leadership, and healthy habits for success in school and beyond.

During the first week of clubs, students will participate in fun get-to-know-you activities designed to help everyone feel welcomed, comfortable, and connected. We will introduce students to STEM, Positive Action, and Project Learn, while also explaining how clubs will run throughout the year. Students will tour the spaces we will be using, review important policies and bathroom expectations, and learn what they can expect from our program. Most importantly, we want every student to feel safe, respected, included, and comfortable being their true, individual self.

Specialty Clubs

We are currently in the process of hiring specialty teachers for our clubs. As soon as we have the clubs up and running, we will let all families know. We apologize for any inconvenience and truly appreciate your patience and understanding as we work to get everything in place.

Thank you for your continued patience and support!
