

September 2026

# Amelia Earhart

2585 W 200 S St, Provo, UT 84601 | [TBD]

**BOYS & GIRLS CLUBS**  
OF UTAH COUNTY

The mission of the Boys & Girls Clubs of Utah County is to inspire and enable all young people, especially those who need us most, to realize their full potential as productive and responsible citizens and leaders.

## Happy Birthday

This is where we will share whose birthdays we are celebrating this month!

## UPCOMING EVENTS

Whenever we have club or school related events, we will share them here!

## CLUB CLOSED

9/7/2026-Labor Day-NO CLUB

## Get To Know

My name is Maya Santa Maria, the students may call me Ms. Santa, and I am so excited to serve as the Site Director for the After School Program at Amelia Earhart this year! This is my 10th school year with the Boys & Girls Club. A little about me—I'm 29 years old and from Utah County, growing up just on the other side of Provo. I graduated from UVU in Family Science. In my free time, I enjoy drawing, reading, anime, k-pop, collecting little treasures, spending time with my husband and daughter and of course, a good soda. I also love learning about different cultures and places around the world. Most importantly, my greatest passion is helping others. My goal this year is to create a safe, fun, and welcoming space where your kids can grow, build new skills, and enjoy being part of our afterschool family. I'm looking forward to an amazing school year together!

## CONTACT INFORMATION

## PARENT RESOURCES

[Parent Handbook](#)  
[Membership Handbook](#)

## Project Learn (Power Hour)

Monday-Thursday (K-6)  
5:00pm-5:30pm

Students will have dedicated time to focus on academically enriching activities which may include completing homework assignments, practicing math skills, reading independently or with peers, or engaging in other High Yield Learning Activities (HYLAs) that reinforce classroom learning.

## Specialty Clubs

### STEM Labs

3:45pm-4:45pm (K-3) Monday & Wednesday  
3:45pm-4:45pm (4-6) Tuesday & Thursday

Activities involving science, technology, engineering, mathematics, and related topics. Kids will learn a variety of STEM related skills and participate in many hands-on activities. This term's focus is Engineering! We will have Engineering is Elementary on Monday & Tuesday and Mission:Engineering on Wednesday and Thursday.

### Enrichment

3:45pm-4:45pm (4-6) Monday & Wednesday  
3:45pm-4:45pm (K-3) Tuesday & Thursday

Clubs are provided Monday-Thursday that are designed to introduce new activities, new passions, and new ideas to the children. This month's specialty club are the STEM Labs mentioned above and Mini Olympics Club.

## September Club & Activity Details

### Message to Parents:

We're so excited to announce that Boys & Girls Clubs of Utah County is able to start an afterschool program at Amelia Earhart Elementary! Thanks to a **one-year grant that covers the cost of our program**, we're excited to bring Boys & Girls Clubs to Amelia Earhart and offer **FREE afterschool programming to families for the entire school year!** This means students can participate in fun, high-quality activities and clubs at no cost to families. The program will run Monday-Thursday 3:20pm-5:30pm. This term, students will enjoy STEM Engineering Club, where they'll design, build, test, and problem-solve through hands-on engineering challenges, and Mini Olympics Club, where youth will participate in fun sports, races, and physical challenges while building teamwork, confidence, and sportsmanship. We'll also provide homework and reading support and Specialty enrichment activities throughout the year. We're so excited for the opportunity to bring Boys & Girls Clubs to Amelia Earhart and create a fun, safe place where kids can learn, build friendships, and discover new interests!

**Power Hour** - The primary focus of Power Hour is to support our youth in completing their homework, engaging in High Yield Learning Activities (HYLAs), and participating in our reading and math programs. Our goal is to reduce missing assignments by collaborating with school-day teachers and ensuring that students complete their daily tasks during our program, allowing for more quality family time at home. For students without homework, we offer a variety of HYLAs, along with our reading and math programs, to further enhance their overall knowledge and skills in these important subjects. This is completed Monday-Thursday for 30 minutes!

### Specialty Clubs:

**STEM Labs - STEM Engineering Club** is a hands-on afterschool program for children ages 5-12, where learning happens through exploring, creating, and problem-solving! In this club, students will dive into the world of engineering through exciting, hands-on STEM activities. Each week, youth will practice creativity, critical thinking, teamwork, and problem-solving as they explore how engineers design, build, test, and improve their ideas. Students will participate in a variety of activities focused on science, technology, engineering, and mathematics while discovering how STEM skills are used to solve real-world challenges. Mondays and Tuesdays will feature our **Engineering is Elementary** curricula, while Wednesdays and Thursdays will feature **Mission: Engineering**, giving students new challenges and opportunities to put their engineering skills to the test!

**Mini Olympics Club** is an active and exciting afterschool program for children ages 5-12, where learning happens through movement, teamwork, and friendly competition! In this club, students will explore a variety of Olympic-inspired sports and challenges while developing physical skills, coordination, and confidence. Each week, youth will participate in fun activities that encourage teamwork, perseverance, sportsmanship, and trying their best. From relay races and obstacle courses to throwing, jumping, and team challenges, students will have the opportunity to discover new activities and build skills while working toward becoming their own Mini Olympic champions! Students in grades K-3 will join the club on Mondays and Wednesdays, while those in grades 4-6 will participate on Tuesdays and Thursdays.

### More Specialty Clubs Coming Soon!

We're excited to start with two specialty clubs—STEM Engineering and Olympic Sports! As we continue hiring talented specialty teachers, we plan to add even more fun and engaging clubs throughout the year. Our specialty clubs are designed to give kids the opportunity to learn a specific skill, build their confidence, and have something they can showcase at the end of the club!

Do you have a skill or passion you'd love to teach kids? We're always looking for people who are interested in teaching a specialty class! Whether it's sports, art, music, cooking, science, technology, or another unique skill, reach out to us to learn more about becoming a specialty teacher and sharing your talents with our students.
