7 Labor day
11 No club staff training.

Get To Know

Hi, my name is Allie Seegrist! I am from Saratoga Springs, Utah and am currently going to school, online at BUY-I, studying Elementary Education, and Art. I love the outdoors, art, baking, and spending time with my family. I am excited to be working with the wonderful kids in our club this school year teaching art classes, outdoor games etc.

After School Program
2026 - 2027**

September Club & Activity Details

Message to Parents:

We hope that your children had a great time the first week of club! As a reminder, we have a NO Electronics policy, including phones and watches. If you need to contact your child, please call the club phone at (801) 717-5035. Also, please remind your child to use the bathroom when school is over and before coming to club. We have many activities planned for this month that we have been working very hard on, and we hope they like them as much as we do.

Social Emotional Learning:

Positive Action - Social Emotional Learning curriculum is an evidence based program that is integrated in afterschool activities to build a positive environment

throughout the program -- an environment that encourages students to do their best and be their best. Positive Action teaches real-life concepts that help students feel good about themselves. This program is run on Mondays and Wednesdays with new topics each week.

SMART Moves - Is a BGCA Social Emotional Learning curriculum that is evidence based with focuses on building positive relationships, decision-making/critical thinking skills, learning how to avoid/resist harmful substances/circumstances, and bullying prevention. This program is run on Fridays with new topics each week.

Academic Support:

Power Hour - The main focus of power hour will be to help youth complete homework assignments, work on HYLE activities and also participate in our reading program. Our goal is to help youth reduce missing assignments by aligning with school day teachers and completing daily assignments at programs to allow family time at home.

CLUBS:

STEM Labs - On Tuesdays and Thursdays, students participate in EIE lessons. Through these sessions, club members explore various hands-on projects involving scientific discovery, technological innovation, engineering challenges, and mathematical concepts.

Utah State Board of Education

Cardboard Engineering Club - Students will have the opportunity to use their ingenuity to design and create structures using cardboard and other simple materials. This hands-on club encourages creativity and problem-solving, and students will have the chance to showcase their unique creations to their peers.

Art Around the World Club - Students will explore a different country, learning about its culture, history, art, and unique fun facts. Based on these insights, students will design and create original art pieces, providing them the opportunity to showcase their work to their peers.

Outside Movement Club - We will play different games every day to encourage physical activity in a fun way!

Art Club - This month we will explore drawing and painting using different mediums. Also, we will make art with things found in nature.
