Get To Know

Ms. Kylie

Ms. Kylie is from Las Vegas and is currently attending Utah Tech. She is studying Communication with an emphasis in Health Communication and a minor in Marketing. In her free time she likes to hang out with her friends, go to farmers markets, and work out! She loves being part of BGC because the kids and staff are super fun and work hard as a team to help each child succeed!

[Membership Handbook](#)

Project Learn

Tuesday-Thursday 4:10-5:20

Project Learn reinforces the academic enrichment & school engagement of youth.

Tuesday-Thursday: 20 minutes of Homework Help & 20 Minutes of Literacy

STEM Labs

Tuesdays & Thursdays 4:10-5:20

EIE STEM (Engineering is Elementary) introduces youth to science, technology, engineering, and math through fun, hands-on activities that encourage creativity, problem-solving, and teamwork.

Enrichment

Mondays & Wednesdays 4:10-5:20

This month our enrichment club is Superhero Studios! We will be creating our own comic books featuring ourselves as superheroes! We will tie this in with our social emotional learning by talking about how to realize & reach our potential as individuals and a club.

Social Emotional Learning

Positive Action M 4:10-5:20; SMART MOVES Fridays 1:45-2:45 pm

Positive Action & SMART Moves use engaging activities to help youth build confidence, positive relationships, and responsible decision-making skills.

Utah State Board of Education

We're officially back in the swing of things! September is bringing fresh routines, cool activities, and lots of chances to learn, grow, and shine. Thanks for helping your child show up ready to go each day!

ENRICHMENT CLUB: Suit up and unleash your imagination! Youth will become the superheroes of their own comics, designing their alter ego, powers, characters, and storyline. They'll learn the basics of comic creation while using creativity, writing, art, and problem-solving to bring their heroic adventures to life.

EIE STEM: This month we will continue our unit on Maglev Systems! These systems use powerful magnets to make a train float above the track instead of rolling on wheels. The magnets push and pull the train forward, allowing it to travel very fast and smoothly with little friction. Come see our unique Maglev designs at our parent night on the 25th!

POSITIVE ACTION/SMART MOVES: Positive Action and SMART Moves are fantastic programs we use to help the youth thrive with social skills! Through these lessons youth will be able to understand themselves and learn positive actions they can practice immediately to lead a happy, successful life! This month we are continuing to learn about a healthy self-concept and the positive actions of physical activity, personal hygiene, and getting good sleep!

PROJECT LEARN: Project Learn reinforces the academic enrichment & school engagement of youth while at club! This year we will all be using part of Project Learn time to strengthen our literacy skills through reading and literacy games Tuesday-Thursday afternoons.

NET POSITIVE: Net Positive is an empowering course for youth to learn how to be safe online. They will learn skills such as identifying suspicious behavior, information that should or should not be shared, and taking responsibility when they encounter something unsafe for youth online.

CREATIVE CLUB: In Creative Club we will be making friendship bracelets, a fall craft, and perler bead designs to bring color and warmth to our days as Summer turns into Autumn.

ACTIVE CLUB: Spike it, serve it, keep it alive! Youth will learn Spikeball skills, teamwork, communication, and game strategy while competing in fun challenges and matches. Get ready to move, play, and see who can keep the rally going!

PARENT NIGHT: Lights On Afterschool! Join us from 4:30-5:30 to celebrate why our afterschool program is so special! Light refreshments will be provided. Come have fun with us!
