Get To Know

Hi I'm Paisley! I'm from West Valley City, but now call Orem home. I am at UVU studying Web Design, I love arts and crafts, being outside, playing board games, and hanging out with my friends and family! I'm a huge Disney nerd, and I love it so much that I even worked at Disney world for a year. I have worked at various camps the past three summers, and I am so excited to be at Orem Junior High! Its going to be an awesome year !

PARENT RESOURCES

[Parent Handbook](#)
[Membership Handbook](#)

Project Learn

Club members engage in daily homework support, literacy development, and specialized math practice to strengthen their academic foundation.

STEM Labs

Members explore various concepts within science, technology, engineering, and math through hands-on laboratory experiences.

Enrichment

Club members discover fresh interests, talents, and innovative concepts through a variety of engaging extracurricular pursuits.

Social Emotional Learning (Prevention & Behavior)

Club members participate in Positive Action and SMART Moves, a comprehensive curriculum designed to equip youth with vital social-emotional competencies. These fundamental skills are introduced via daily instruction and woven into every aspect of our program.

Orem Jr. After School Program 2026 - 2027

September Club & Activity Details

Welcome Parents and Families,

We are thrilled to present another month of immersive clubs and enrichment for our members! During September, our mission remains centered on cultivating a secure and inclusive space where youth can thrive, forge connections, and expand their academic and personal horizons.

Our specialized programming is curated to integrate academic assistance with hands-on creativity and social development. From engineering robotic designs and competitive athletics to artistic expression and academic support, each pursuit empowers students to build self-assurance, cooperative skills, and critical thinking.

We appreciate your continued collaboration in your student's journey. Let's look forward to an exceptional September at the Club!

Power Hour - Power Hour offers a structured window for students to prioritize academic obligations. Our facilitators assist members in completing assignments and managing daily tasks to minimize missing work. For those without homework, we provide enriching alternatives including math and literacy centers, alongside High Yield Learning Activities. This program runs Monday through Thursday.

STEM - Americorp - STEM (Science, Technology, Engineering, and Math) is a hands-on way for students to explore the world around them. Through interactive labs, children develop critical thinking and problem-solving skills by building, designing, and experimenting. It's a fun, engaging way to spark curiosity and build a strong foundation for future learning.

Positive Action - On Tuesdays and Thursdays, we utilize the evidence-based Positive Action curriculum. This program is woven into our Club culture to promote a supportive environment where youth are empowered to reach their full potential. By focusing on real-life applications, members learn to cultivate a positive self-concept and excel in their daily interactions.

Robotics and Technical Science at Orem Jr. High

The Robotics and Technical Science program at Orem Jr. High's afterschool club offers hands-on STEM experiences where students build, code, and test their own robotic creations. Designed for 7th-9th graders, it fosters creativity, problem-solving, and real-world engineering skills in a fun and supportive environment.

Jeopardy/Kahoot

Students put their knowledge to the test through fun and interactive trivia games using Jeopardy-style challenges and Kahoot. These activities encourage teamwork, quick thinking, participation, and friendly competition while reinforcing academic knowledge.

Net+

Net+ provides students with opportunities to build digital literacy and technology skills. Activities encourage responsible technology use, problem-solving, creativity, and collaboration while helping students become more confident navigating the digital world.

No-Bake Activities

No-Bake Activities introduce students to the fun of food preparation without the need for an oven or stove. Students practice following directions, measuring, creativity, and teamwork while making simple and enjoyable snacks.

Pickleball

Pickleball is a fun and active sport that helps students develop coordination, balance, agility, and teamwork. Students learn basic skills, rules, and sportsmanship while participating in friendly games and challenges.

Dance

Dance provides students with a creative way to express themselves while staying active. Students explore movement, rhythm, coordination, and different styles of dance in an encouraging and positive environment.

Yoga

Yoga gives students an opportunity to practice movement, flexibility, balance, breathing, and mindfulness. Activities are designed to help students relax, improve body awareness, and develop healthy strategies for managing stress.

Magic: The Gathering

Magic: The Gathering is a strategy-based card game that encourages planning, critical thinking, decision-making, and problem-solving. Students learn game mechanics while practicing sportsmanship, patience, and respectful interaction with others.

Board Games

Board Games provide students with a fun opportunity to practice strategy, communication, critical thinking, and teamwork. Students can enjoy a variety of games while learning to follow rules, take turns, and demonstrate good sportsmanship.

Outside Recreation

Outside Recreation gives students time to be active, enjoy fresh air, and participate in a variety of physical activities and games. Students build teamwork, coordination, communication, and sportsmanship while having fun with their peers.
