Project Learn

Monday - Thursday

Project Learn provides students with a supportive environment to complete homework, strengthen reading skills, and build academic confidence. Members receive help from staff with their schoolwork or will participate in Hyla's.

STEM Labs

Mondays & Wednesdays

Explore, experiment, and discover! In STEM, kids will dive into science, technology, engineering, and math through fun, hands-on activities that spark curiosity and creativity.

Enrichment

Monday - Thursday

Physical / Creative Club each month. Members get to try new things, build skills, and have fun while exploring their passions.

SMART Moves / Positive Action

Tuesdays & Fridays

This curriculum engages club members through actions and activities designed to help them identify their emotions and feelings. It also provides them with positive choices and strategies to appropriately express and manage those emotions.

September Club & Activity Details

Message to Parents:

Hello Paradise Canyon Families! ❤️

We are so excited to see our Boys & Girls Club program continuing to grow and welcome more students each week! As we head into our second month of programming, we would love your help spreading the word to other Paradise Canyon families. Our goal is to serve and support as many students as possible and give them a safe, positive, and FUN place to be after school!

We also have some exciting new clubs, activities, and learning opportunities planned for this month, and we can't wait for our students to participate, learn new skills, make friends, and have fun together.

Thank you for being part of our Boys & Girls Club community and for helping us grow! ☀️

Art Club - Students will explore their creativity through fun, hands-on projects using a variety of art materials and techniques! 🎨 Throughout the month, students will experiment with painting, color, texture, movement, and even 3D art through activities like bubble painting, salt painting, marble art, collaborative murals, and sculpture challenges. Each project is designed to encourage creativity, self-expression, problem-solving, and confidence while giving students the freedom to make their artwork uniquely their own. Most importantly, Art Club is a place for students to create, experiment, get a little messy, and have fun!

Soccer Club - Students will build their soccer skills while staying active and having fun! Through engaging games, drills, and friendly team challenges, students will practice dribbling, passing, shooting, teamwork, and good sportsmanship. Soccer Club is a great way for students to develop new skills, build confidence, and work together as a team!

Net Positive - Students will learn how to stay safe, responsible, and positive while using the internet. Through fun, age-appropriate activities, they will explore topics like online safety, making smart choices, protecting personal information, and being kind and respectful online.
