UPCOMING EVENTS

10/30 - Boys and Girls Club Family Night
10/31 - Halloween

CLUB CLOSED

10/09 - Jumpstart Conference for staff
10/15-16 - Fall Break
10/19 - Teacher Work Day

Get To Know

Hello! My name is Armando Torres. I am the Site Director for The Boys and Girls Club at Bonneville.

I am 24 years old and originally from Dalton, Georgia. I am currently attending UVU studying Physics Education. I love watching movies with my wife, playing games with my friends, and absolutely love soccer. This is my third school year at Bonneville. It's been so amazing seeing how much our returning students have grown since I first got here and I'm excited to get to know all of our new students this school year!

PARENT RESOURCES

[Parent Handbook](#)
[Membership Handbook](#)

Project Learn

M-Th | 4:15-5:10

Students will have dedicated time to focus on academically enriching activities which may include completing homework assignments, practicing math skills, reading independently or with peers, or engaging in other High Yield Learning Activities (HYLAs) that reinforce classroom learning.

STEM Labs

K-3rd | MW | 4:00-4:45pm
4th-6th | TTTh | 4:00-4:45pm

Activities involving science, technology, engineering, mathematics, and related topics. Kids will learn a variety of STEM related skills and participate in many hands-on activities. We will be using our EIE kits for these activities.

Enrichment

M-Th | 3:00-4:00pm

This month we will be continuing with our clubs that were started last month.. They will be **Paleontology Club** and **Pickleball Club**.

Social Emotional Learning

Fridays

This month we will be continuing with our SMART moves curriculum on Fridays. We will be covering lessons 4-5.

- Time Travelers K-2nd
- Magic Carpet Ride K-2nd
- Before, During, and After 3rd-6th
- Worry Wizards 3rd-6th

October Club & Activity Details

Message to Parents:

We're excited to welcome October at Bonneville! After a great start to the school year, students will continue building on the routines, relationships, and skills they've developed while taking part in hands-on clubs, academic support, STEM activities, and social-emotional learning. This month will also give students a chance to wrap up our September clubs and celebrate the learning and experiences they've had throughout the past several weeks.

Power Hour:

Power Hour will continue **Monday–Thursday**. Students will have dedicated time for homework help, reading, math enrichment, iReady, and other academic activities. For students who do not have homework, we provide High Yield Learning Activities (HYLAs) and additional opportunities to strengthen their academic skills. Our goal is to help students stay on top of their schoolwork while providing them with the support they need to be successful.

STEM Labs:

Our STEM Labs will continue using our **Engineering is Elementary (EiE) kits**. Students will continue working through hands-on engineering challenges that encourage them to explore real-world problems, design solutions, test their ideas, and learn from the results. These activities provide opportunities to practice creativity, critical thinking, teamwork, and problem-solving while connecting STEM concepts to the world around them.

Paleontology Club:

Students will continue exploring the fascinating world of prehistoric life as we wrap up our Paleontology Club this month! Youth will continue learning about dinosaurs, fossils, Earth's history, and the scientists who study our planet's past through hands-on activities and engaging challenges. We're excited to give students the opportunity to finish the club by putting their knowledge and skills to use as they investigate, ask questions, and think like real paleontologists.

Pickleball Club:

Our Pickleball Club will also continue through October before wrapping up at the end of the month. Students will continue developing their pickleball skills through drills, games, and friendly competition. Along the way, they'll practice coordination, teamwork, communication, and sportsmanship while staying active and having fun. We're looking forward to seeing how much students continue to grow throughout the final weeks of the club!

Social-Emotional Learning – SMART Moves:

We will continue our **SMART Moves** social-emotional learning curriculum during our Friday rotations. Through interactive lessons, discussions, and activities, students will continue developing skills related to making healthy decisions, managing emotions, building positive relationships, and handling challenges. These lessons give students opportunities to connect what they learn to situations they may experience at school, at home, and with their peers.

As we move into October, we're excited to continue creating opportunities for students to **learn, explore, stay active, build friendships, and discover new interests**. Thank you for your continued support as we work to make Bonneville Afterschool a place where every student can learn, grow, and thrive!
