Get to Know Your Site Coordinator! 🌟

Meet Zayley!

Hi! I'm Zayley Chadburn, and I'm excited to be part of BGC this year as your new Site Coordinator!! I'm from Minersville, and some of my hobbies include reading, painting, spending time with my dogs, and working.

Fun fact: I have 5 dogs! 🐕

This year, I'm looking forward to getting to know the kids better and having lots of fun with exciting clubs and activities!

October Club & Activity Details

Message to Parents:

🎃 Happy October! 🧛‍♀️

We are excited for another great month at the Boys & Girls Club! As we welcome the fall season, we wish all of our members and families a happy October filled with fun, learning, and great memories. We hope everyone enjoys the cooler weather, festive activities, and a little Halloween fun along the way!

Thank you for being part of our Boys & Girls Club family. We look forward to another amazing month together!

All About Pumpkin Club - The All About Pumpkin Club will be pumpkin season! It will teach students what pumpkins are, and they will observe and investigate the parts of a pumpkin. We'll go into the parts of the pumpkin and get a better understanding of how pumpkins grow. This club will encourage students' choice, curiosity, problem-solving, collaboration, communication, as well as reflection. Activities throughout the club will be differentiated from kindergarten through fifth grade to make them more helpful and understandable for students. This will support developmental levels while building academic skills and social-emotional skills. By the end of this club, students will be able to share what they have learned about pumpkins through their reflections.

Adventure Club - The Adventure Club will be all about adventures, making it exciting for the kids to explore. It is going to be a hands-on club designed to encourage students to explore, discover, and challenge themselves through interactive activities and adventures. The students will participate in scavenger hunts, team-building activities, outdoor exploration, map and navigation activities, problem-solving games, and creative adventure missions. The activities throughout Adventure Club will encourage the students to step out of their comfort zones, practice perseverance, and learn from both successes and challenges. This will give students opportunities to make choices, take on leadership roles, and reflect on their experiences.

Positive Actions 🧑‍🤝‍🧑 (Tuesdays & Thursdays) - Students participate in Positive Action lessons that help build communication skills, leadership, positive relationships, and healthy decision-making. Lessons include engaging activities and discussions that help youth develop confidence, responsibility, and respect for others.

STEM Club 🧪 (Tuesdays & Thursdays) - Explore STEM through hands-on activities using YES Kits. Members will complete engaging experiments, design challenges, and interactive projects that encourage curiosity, critical thinking, creativity, and problem-solving. STEM Club helps youth discover how STEM concepts connect to the world around them while having fun learning through hands-on experiences.

SMART Moves 💬 (Wednesdays) - Students participate in SMART Moves lessons that help build healthy decision-making skills, goal setting, communication, and resistance to peer pressure. Through interactive activities and discussions, youth learn how to make safe, positive choices and develop skills for success.

Net Positive Visit 🖥️ - Members will participate in engaging lessons and activities focused on digital citizenship and online safety. Topics may include responsible technology use, internet safety, cyberbullying prevention, media literacy, and building a positive digital footprint. This club helps youth develop the knowledge and skills needed to navigate the online world safely, respectfully, and confidently.

Power Hour 📝 (Daily) - Power Hour provides dedicated time for homework completion, reading, and academic enrichment. Staff offers support and encouragement while members build responsibility, organization, time management, and study skills. The goal is to help youth develop strong learning habits and confidence in their academic success
