CLUB CLOSED

10/21-10/26-Fall Break-NO CLUB

Get To Know

My name is Shaylynn Jordan, students can call me Ms. Shay! I'm thrilled to be joining The Boys & Girls Club (BGC) as

the Program Coordinator for Provost. Before joining BGC, I taught students for many years in voice, art, & fitness clubs through various programs. I grew up in Utah County, & graduated from UVU. Some of my favorite things are traveling, reading, gaming, & collecting vinyl records & listening to music with my husband. I'm looking forward to creating a fun, safe, & welcoming environment for students to grow, make new friends, & build skills that will help them throughout their lives. I can't wait to get to know the students of Provost!

Project Learn (Power Hour)

Monday-Thursday (K-6) @ Provo Clubhouse 5:00pm-6:00pm

Students will have dedicated time to focus on academically enriching activities which may include completing homework assignments, practicing math skills, reading independently or with peers, or engaging in other High Yield Learning Activities (HYLAs) that reinforce classroom learning.

Specialty Clubs

STEM Labs

3:30pm-4:30pm (K-3) Monday & Tuesday
3:30pm-4:30pm (4-6) Wednesday & Thursday

Activities involving science, technology, engineering, mathematics, and related topics. Kids will learn a variety of STEM related skills and participate in many hands-on activities. This term's focus is Engineering! We will have Engineering is Elementary on Monday & Wednesday and Mission:Engineering on Tuesday and Thursday.

Enrichment

3:30pm-4:30pm (4-6) Monday & Tuesday
3:30pm-4:30pm (K-3) Wednesday & Thursday

Clubs are provided Monday-Thursday that are designed to introduce new activities, new passions, and new ideas to the children. This month's specialty clubs are the STEM Labs mentioned above and Sewing for 4-6 on Monday/Tuesday and Games Club for K-3 on Wednesday/Thursday.

October Club & Activity Details

Message to Parents:

We're so excited to announce that **Boys & Girls Clubs of Utah County** is returning to **Provost Elementary**! Thanks to a **one-year grant that covers the cost of the program**, we're able to offer **FREE afterschool programming to Provost families for the entire school year**! Students can participate in fun, high-quality activities, clubs, and enrichment opportunities at no cost to families. Our program will run **Monday–Thursday from 3:10–4:30 PM**, with the option for students to continue their afternoon at the **Provo Clubhouse until 6:00 PM**. This term, students will have the opportunity to participate in **STEM Engineering Club**, where they'll design, build, test, and problem-solve through hands-on engineering challenges. We'll also offer **Sewing Club for grades 4–6** and **Games Club for grades K–3**, where youth can enjoy fun games, sports, races, and physical challenges while building teamwork, confidence, and sportsmanship. We're so excited to bring Boys & Girls Clubs back to Provost and create a **fun, safe, and welcoming place** where kids can learn new skills, build friendships, stay active, and discover new interests—all **completely free for families this year**.

Power Hour – Power Hour is our dedicated academic time where students can complete homework, receive academic assistance, and build important skills in a fun and engaging environment. **Power Hour is offered Monday–Thursday at the Provo Clubhouse from 4:45–5:30/6:00 PM** for students who continue to the Clubhouse after their specialty club. Along with homework support, youth will participate in fun academic games and activities such as **Kangaroo Math, Spelling Bee, reading activities, and other games that make learning exciting!** Our goal is to help students stay on top of their schoolwork while strengthening their reading, math, and other academic skills in ways that feel more like fun than traditional homework.

Specialty Clubs:

STEM Engineering Club – **YES – Youth Engineering Solutions!** and **Mission: Engineering** are hands-on STEM programs where students learn by designing, building, testing, and problem-solving! Youth will explore exciting engineering challenges while developing creativity, critical thinking, teamwork, and perseverance. Through a variety of hands-on activities, students will discover how science, technology, engineering, and math are used to solve real-world problems. **Mondays and Tuesdays will feature our YES – Youth Engineering Solutions! curriculum, while Wednesdays and Thursdays will feature Mission: Engineering**, giving students new challenges and opportunities to put their engineering skills to the test!

Games Club – Games Club is a fun and active afterschool experience designed for students in grades K–3! Youth will participate in a variety of games, races, challenges, and activities that encourage movement, teamwork, and friendly competition. Through play, students will build confidence, practice sportsmanship, develop coordination, and learn how to work together while having fun. Each week will bring new games and challenges designed to keep students active, engaged, and excited to participate! **Sewing Club – Sewing Club** gives students in grades 4–6 the opportunity to learn and practice sewing skills through hands-on projects and creative activities. Youth will learn the basics of sewing while developing patience, focus, creativity, and problem-solving skills. As students work through different projects, they'll have the opportunity to build their confidence, learn new techniques, and create something they can be proud of!

More Specialty Clubs Coming Soon!

We're excited to start with two specialty clubs—STEM Engineering and Olympic Sports! As we continue hiring talented specialty teachers, we plan to add even more fun and engaging clubs throughout the year. Our specialty clubs are designed to give kids the opportunity to learn a specific skill, build their confidence, and have something they can showcase at the end of the club!

Do you have a skill or passion you'd love to teach kids? We're always looking for people who are interested in teaching a specialty class! Whether it's sports, art, music, cooking, science, technology, or another unique skill, reach out to us to learn more about becoming a specialty teacher and sharing your talents with our students.
