Get To Know

Hello! My name is Maren Henderson. I am originally from Florida, I have lived in Provo for 3 years studying Linguistics at BYU. This is my first year working with the Boys and Girls Club and I am so excited to lead fun and engaging clubs for the youth here with us. Some fun facts about me are I speak spanish, I love to draw and crochet and birds are my favorite animals.

[Membership Handbook](#)

Project Learn

Tuesday & Thursday
3:30 - 4:00 PM

Project Learn is a time for your students to receive additional academic support. Staff members are able to help them with math, reading, writing, and other homework subjects.

STEM Labs

Monday & Wednesday
3:30 - 4:00 PM

Students will be focusing on Science, specifically biology. They will learn about membranes through Engineering and Elementary curriculum.

Enrichment

Monday - Friday
4:40 - 5:10 PM

Clubs are provided Monday-Thursday that are designed to introduce new activities, new passions, and new ideas to the children. This month's theme is Halloween!

Social Emotional Learning (Prevention & Behavior)

Tuesday & Thursday
4:00 - 4:30 PM

Focus: Recognizing Emotions. Students will learn to manage emotions, make positive choices through Positive Action & SMART Moves, and build teamwork skills through communication and cooperation.

October Club & Activity Details

Message to Parents:

We're so excited to bring these programs and clubs to your kids! Our goal is to make their time with us fun, meaningful, and full of opportunities to learn and grow. 🧡 If you ever have questions or ideas for things you'd love for your child to learn or try, we'd love to hear from you! Thank you for being part of our club family!

[Project Learn] - Project Learn or "Power Hour" is our academic time Tuesday & Thursday to help support what our club members are learning during the school day. Boys & Girls Club offers homework help, High Yield Learning activities, and other fun games/activities that have an academic focus that are still fun!

[STEM] - STEM is our twice a week rotation that is taught by our AmeriCorps members! STEM includes topics of science, technology, engineering, and math. Within this club our members will be able to learn and explore aspects of how the world works around them. Building, creating, and constructing projects out of objects in the world around them.

[Social Emotional Learning]- Similar to previous years, Boys & Girls Club uses two social emotional learning curricula— SMART Moves and Positive Action. Within both curriculums, club members will learn a lot about feelings, emotions, being a good friend/peer, and ways to help others. Social Emotions are crucial to development and we make learning fun through these curriculums!

[Sports Club]- Tuesdays and Thursdays club members will have the chance to stay active, learn new sports, and build teamwork skills. Through fun games and activities, kids will practice sportsmanship, communication, and working together while having a great time! Our goal is to make being active fun and help every club member feel confident and included.
