CLUB CLOSED

11/13 - Staff Training
11/26-11/27 - Thanksgiving Break

Get To Know

Hey y'all! My name is Annalee. I've been with the clubhouse for a little over a year now, and I love it! When I'm not at the clubhouse, you can find me working for a hospice company, doing something involving music, spending time with my sisters, walking, enjoying a sunset, or studying to become a nurse. I'll be graduating with my bachelors degree in nursing in April, and I love getting to share my passions with the kids! I love working with them and teaching them about saving lives, staying calm, staying safe, being creative, and seeing them grow! I also love helping plan events so they can have opportunities to share their accomplishments. Boys and Girls Club is the best, and I'm so happy to be here! (:

PARENT RESOURCES

Parent Handbook
Membership Handbook

Project Learn: Power Hour

Daily @ 5pm

Project Learn is a daily opportunity for youth to learn new skills, practice and refine existing skills through engaging activities such as theme based clubs, homework help, and HYLA's (High Creative, Physical & STEM Rotations Learning Activities) and also participate in our math & reading programs.

STEM Labs

Monday - Thursday @ 5pm

Youth learn all about the scientific and design processes through hands-on and engaging experiments.

Enrichment

Daily @ 4pm

We have a variety of fun skill based enrichment activities. Look at the calendar for a full schedule of all the fun and to see the various activities taking place this month.

Social Emotional Learning (Prevention & Behavior)

Positive Action: Monday - Friday (incorporated in all club activities)
SMART MOVES: Fridays @ 2:30pm

SMART Moves curriculum focuses on providing youth with important social-emotional skills. All SEL skills are taught through weekly lessons and then integrated throughout club activities.

BOYS & GIRLS CLUBS
OF UTAH COUNTY

November Club & Activity Details

Message to Parents:

2nd Quarter is officially up and running! We have loved watching the kids learn and grow from the clubs we offered last quarter and our excitement only continues to grow as we continue to offer these FUN and ENGAGING Clubs. Be sure to keep an eye out for some fun activities coming up towards the end of the quarter and also make note of the days that we will be closed. We will be OPEN on the Wednesday before Thanksgiving, and will have some fun activities available for our club members and others in the area.

K-2 Clubs			3-6 Clubs	
Club	**Description**		**Club**	**Description**
STEM	Explore science, technology, engineering, and math through hands-on experiments, building challenges, coding activities, and creative problem-solving.		STEM	Explore science, technology, engineering, and math through hands-on experiments, building challenges, coding activities, and creative problem-solving.
Drawing Club	A creative space where kids can explore their imagination and build their drawing skills through fun activities, drawing challenges, and different artistic techniques. No experience needed—just bring your creativity!		Ukulele Club	Learn how to play the Ukulele or build upon the basic skills that you already have. This is one club that you won't want to miss out on.
Music Club	A fun and energetic club where club members explore music through singing, movement, rhythm games, simple instruments, and creative activities. Kids will have fun making music while building confidence and discovering their own musical style!		Creative Design Club	Let your creativity take the lead! Explore interior design, digital creations, clothing and fashion designs, and so much more. Design, create, and bring your ideas to life in this fun and creative club!
Holiday Craft Club	A festive, hands-on club where kids create fun holiday-themed crafts and decorations while exploring their creativity and making special projects to take home or share with others.		Holiday Craft Club	A festive, hands-on club where kids create fun holiday-themed crafts and decorations while exploring their creativity and making special projects to take home or share with others.
Little Lego Engineers	A hands-on building club where young creators use LEGO bricks to build, experiment, and solve fun engineering challenges. Kids will practice creativity, problem-solving, and teamwork while bringing their ideas to life!		Yarnigans	A hands-on crafting club where students learn the basics of loom knitting by creating their own cozy winter hats! Kids will develop creativity, patience, and fine motor skills while making something warm and useful to take home.
Power of Play	A fun, active club where kids learn, connect, and build skills through games, challenges, and creative play. From teamwork and problem-solving to communication and confidence, every activity is designed to show just how powerful play can be!		Cooking Club	Learn basic cooking and kitchen safety skills while preparing simple, delicious recipes and exploring healthy ingredients from around the world.
Winter & Indoor Sports Club	Stay active by playing a variety of sports and fitness games that promote teamwork, sportsmanship, and healthy lifestyles.		Sewing Club	Discover the fundamentals of sewing by creating fun projects, learning basic stitching techniques, and building confidence with hands-on crafting skills.

Math Kangaroo	Strengthen math skills through engaging puzzles, games, and problem-solving activities inspired by the internationally recognized Math Kangaroo program.		3D Printing	Explore the exciting world of design and technology by creating digital models and bringing ideas to life with a 3D printer while learning about engineering and innovation.
Book Club	We all love a good book! This can vary from reading a book together as a group to quiet reading on your own to using letters to spell and sound out words. Our goal is to help kids improve their literacy, reading skills, and to create some young book worms!		D&D	Embark on exciting adventures where imagination, teamwork, and storytelling come together. Members will create characters, solve puzzles, overcome challenges, and build confidence through collaborative role-playing and creative thinking.
Research Corner	This is something super fun for our club members! We will have different animals or science topics that our club members can choose from to "research." They will write out what they are learning, create a poster or visual representation of what they are learning and show off what they have learned at the next showcase		Math Kangaroo	Strengthen math skills through engaging puzzles, games, and problem-solving activities inspired by the internationally recognized Math Kangaroo program.
Brain Builders	Brain Builders is a fun club where kids challenge their minds through strategy games, puzzles, logic challenges, and problem-solving activities. Kids will practice critical thinking, creativity, teamwork, and decision-making while having fun.		Book Club	Foster a love of reading by exploring exciting books, participating in discussions, and completing fun literacy activities together.
Chess Club	Chess Club gives kids a fun opportunity to learn and play chess while building critical thinking, problem-solving, strategy, patience, and decision-making skills. Students can learn the basics, practice with friends, and challenge themselves with new strategies.
