Project Learn (Power Hour)

Monday-Thursday (K-6)
5:00pm-5:30/6pm

Students will have dedicated time to focus on academically enriching activities which may include completing homework assignments, practicing math skills, reading independently or with peers, or engaging in other High Yield Learning Activities (HYLAs) that reinforce classroom learning.

Specialty Clubs

STEM Labs

3:45pm-4:45pm (K-3) Monday & Wednesday
3:45pm-4:45pm (4-6) Tuesday & Thursday

Activities involving science, technology, engineering, mathematics, and related topics. Kids will learn a variety of STEM related skills and participate in many hands-on activities. This term's focus is Engineering! We will have Engineering is Elementary on Monday & Tuesday and Mission:Engineering on Wednesday and Thursday.

Enrichment

3:45pm-4:45pm (4-6) Monday & Wednesday
3:45pm-4:45pm (K-3) Tuesday & Thursday

Clubs are provided Monday-Thursday that are designed to introduce new activities, new passions, and new ideas to the children. This month's specialty clubs are the STEM Labs mentioned above, a School Play, and Mini Olympics Club.

Utah State Board of Education

November Club & Activity Details

Message to Parents:

We're excited to continue our **Boys & Girls Clubs of Utah County program at Spring Creek Elementary!** Now that our program is underway, students have the opportunity to participate in fun activities, build friendships, and explore new interests in a welcoming environment. Our program runs **Monday and Wednesday from 3:30–5:30 PM** and **Tuesday and Thursday from 3:30–4:45 PM**. Families who need care beyond our Spring Creek program hours may have the option to continue their afternoon at the **Provo Clubhouse until 6:00 PM**. Please contact us for details about availability and transportation arrangements.

This November, students can continue participating in **STEM Engineering Club**, where they design, build, test, and problem-solve through hands-on engineering challenges. Students in grades 3–6 can also participate in **the school play on Mondays and Wednesdays**, while students in grades K–2 can enjoy **Mini Olympics Club on Tuesdays and Thursdays**, featuring fun games, sports, races, and physical challenges that encourage teamwork, confidence, and sportsmanship. We're so glad to be part of the Spring Creek community! We look forward to another month of helping students learn new skills, build friendships, stay active, and discover new interests through fun, engaging, and enriching afterschool experiences!

Power Hour - Power Hour is our dedicated academic time where students can complete homework, receive academic assistance, and build important skills in a fun and engaging environment. **Power Hour is offered Monday/Wednesday at Spring Creek from 5:00pm-5:30pm and Tuesday/Thursday at the Provo Clubhouse from 5:00pm-6:00pm** for students who continue to the Clubhouse after their specialty club. Along with homework support, youth will participate in fun academic games and activities such as **Kangaroo Math, Spelling Bee, reading activities, and other games that make learning exciting!** Our goal is to help students stay on top of their schoolwork while strengthening their reading, math, and other academic skills in ways that feel more like fun than traditional homework.

Specialty Clubs:

STEM Labs - STEM Engineering Club is a hands-on afterschool program for children ages 5-12, where learning happens through exploring, creating, and problem-solving! In this club, students will dive into the world of engineering through exciting, hands-on STEM activities. Each week, youth will practice creativity, critical thinking, teamwork, and problem-solving as they explore how engineers design, build, test, and improve their ideas. Students will participate in a variety of activities focused on science, technology, engineering, and mathematics while discovering how STEM skills are used to solve real-world challenges. Mondays-Thursdays will feature our **Engineering is Elementary** curricula, while giving students new challenges and opportunities to put their engineering skills to the test!

Mini Olympics Club is an active and exciting afterschool program for children ages 5-12, where learning happens through movement, teamwork, and friendly competition! In this club, students will explore a variety of Olympic-inspired sports and challenges while developing physical skills, coordination, and confidence. Each week, youth will participate in fun activities that encourage teamwork, perseverance, sportsmanship, and trying their best. From relay races and obstacle courses to throwing, jumping, and team challenges, students will have the opportunity to discover new activities and build skills while working toward becoming their own Mini Olympic champions! Students in grades K-3 will join the club on Tuesdays and Thursdays.

Musical Theatre – We're excited to continue sponsoring the musical theatre program that many of our families have already signed up for! This program will remain available as an option **Mondays and Wednesdays through December**, giving students the opportunity to build confidence, creativity, teamwork, and performance skills while preparing for their upcoming production. We're excited to support this program and provide students with a fun opportunity to explore the performing arts!

More Specialty Clubs Coming Soon!

We're excited to start with two specialty clubs—STEM Engineering and Olympic Sports! As we continue hiring talented specialty teachers, we plan to add even more fun and engaging clubs throughout the year. Our specialty clubs are designed to give kids the opportunity to learn a specific skill, build their confidence, and have something they can showcase at the end of the club!

Do you have a skill or passion you'd love to teach kids? We're always looking for people who are interested in teaching a specialty class! Whether it's sports, art, music, cooking, science, technology, or another unique skill, reach out to us to learn more about becoming a specialty teacher and sharing your talents with our students.
