Get To Know Miss Elise

Ms. Elise is a Senior at SUU studying Biology. She loves hiking and other outdoor activities as well as cooking and baking. She has loved getting to know the afterschool kids and is always amazed at their creativity and innovation. Ms. Elise brings so much fun to our STEM lessons. We are lucky to have her. Thank you Ms. Elise!

PARENT RESOURCES

Parent Handbook
Membership Handbook

Project Learn

Monday - Thursday *4:00-4:30*

Students will have the opportunity to log Lexia and reading hours, in addition to working on homework , class projects, and assignments (as assigned by school day teachers). Students will also engage in math and reading through grade appropriate games, projects, and activities

STEM Labs

Monday-Thursday: *3:45-5:15*

Students will experience hands-on, fun, age appropriate AmeriCorps STEM labs. This includes Science, Technology, Engineering, and Math.

Enrichment

Mondays & Wednesdays:
Threads and STEM Club
Tuesdays & Thursdays:
Stem, Movement, Friendship, and Art Club
Fridays:
Art and Movement Club

These activities are age appropriate, tactile, and fun. They promote learning in a playful way, that encourages students to try new things, and encourages team building along the way

Social Emotional Learning (Prevention & Behavior)

Positive Action
Monday & Wednesday *3:45-4:15 pm*

Smart Moves
Friday *1:15-2:00 pm*

This time will be centered around learning ways to develop our sense of self, how we can better ourselves and improve our relationships with those around us. These skills will be embedded into clubs and activities to promote and teach implementation and real life applications.

BOYS & GIRLS CLUBS
OF SOUTHERN UTAH

August Club & Activity Details

Movement Club - Movement club is designed to set students up for success in physical education and learn the importance of physical activity. Students will learn about strength, balance, coordination, and sportsmanship while participating in team based sports and activities, and have the opportunity to lead their own games!

Art Club - Students explore different artists, art styles, and creative mediums through fun, elementary-friendly projects. They will experiment with painting, drawing, collage, clay, watercolor, mixed media, and more while learning about artists and expressing their own creativity.

STEM Club - STEM club is a hands-on, fun learning experience where students become scientists, engineers, and problem-solvers. Through exciting experiments and STEM challenges, students will practice teamwork, leadership skills, and critical thinking while exploring how things work. Students will work together to make predictions, test ideas, solve problems, and learn from their results. Most importantly, STEM Club gives students a chance to be curious, try new things, and discover that learning can be an adventure!

Threads Club - In this club, we create works of art with yarn, cardboard, and paper plates! We also practice coordination and fine motor skills.

+ More clubs to be announced soon!
