Get To Know

Josh Faulkner

Josh has been teaching math, engineering, and music classes for over a decade and has been at Walden nearly as long. He graduated from the University of Utah in 2006 with a Bachelor's of Science in Electrical Engineering (BS EE) where he had a main focus on antennas and other communication devices. In the summer of 2008 he graduated from Utah State University with a Master's Degree in Secondary Education (M. Ed.). He currently holds a Level 2 teaching license with a level 4 math endorsement. During his time at Walden, Joshua has taught a wide variety of classes at Walden, including Secondary Math II, Secondary Math III, IBDP Math SL, IBDP Math HL, Theory of Knowledge, IB Workshop, Discrete Math, AP Calculus, Electronic Music, Guitar, Song Writing, Electrical Engineering, The History of Video Gaming, Experimental Music, History of Music and Recording Techniques, and Conspiracy Theories. Joshua likes to build and design electronics, convert obsolete computer equipment into musical instruments, create music, make movies, and write comic books.

PARENT RESOURCES

Parent Handbook
Membership Handbook

Social Emotional Learning (Prevention & Behavior)

Positive Action: Daily
This month's Positive Action lessons focus on what goes on inside and outside of our heads. We will look at how sleep and nutrition are essential for a healthy brain and how we can maintain a healthy brain that learns and creates.

SMART Moves: Mon. & Weds.
In this month's curriculum, we will be studying how all of our internal processes affect our bodies and what we can do to keep ourselves regulated. Lessons will focus on emotions, guided imagery, and our minds, bodies, and souls.

OF UTAH COUNTY

November Club & Activity Details

Message to Parents:
We're looking forward to another exciting month of clubs at the high school. This month we'd like to feature our academic help—Math Lab every day except Tuesdays and Homework Help every Thursday. Tonia and Josh are eager to help you catch up on your classes or stay caught up. See you after school!

Dungeons & Dragons - Dungeons & Dragons offers numerous educational benefits, including enhancing critical thinking, creativity, and problem-solving skills. It fosters teamwork and collaboration, improves communication and literacy, and reinforces numeracy skills. The game also helps develop social skills and empathy, builds persistence and resilience, and provides leadership and decision-making opportunities, especially for student Dungeon Masters. Overall, D&D is a powerful tool for holistic learning and personal development.

Math Lab - Hosted by Math Teacher Extraordinaire™Josh Faulkner, all high school students are invited to come to Math Lab for one-on-one support for their math classes. Whether it's catching up on homework, prepping for a quiz, or revising an assessment, we've got you covered.

Homework Help - This is a quiet space held each Thursday for any students who need a little extra time to get their homework in before the weekend. All students and assignments are welcome and Tonia is excited to give you one-on-one support, plus a little *Disney Magic*.

Chess - New for this month, Truedson is looking to increase his Elo rating. Come give him a challenge worthy of Magnus and Hikaru. Or, if you're new to the old game, come for an intro or some pointers!
